CHAPTER 1

LEADERSHIP FOREWORD & CORPORATE PROFILE

SECTION 1: CHAIRPERSONS FOREWORD

**Makhate Jonas Nqakalatsane Board Chairperson**

I am pleased to present the Metropolitan Tech Company's Quarter Two Performance Report for the 2025/2026 financial year. This reporting period reflects steady progress in advancing the organisation's mandate as the City of Johannesburg's digital infrastructure enabler, while operating within a constrained and complex municipal environment. During the quarter under review, the Board continued to provide strategic oversight with a strong focus on governance, accountability, and alignment to the City's strategic priorities, including the Integrated Development Plan, the Growth and Development Strategy 2040, and the Smart City agenda. The Board remains committed to ensuring that the organisation delivers value through reliable, affordable, and effective ICT services to City departments, Municipal Entities, and residents. Governance remained a key area of focus during the quarter. The Auditor-General released an Unqualified Audit Opinion with findings, providing assurance on the credibility of the financial statements while highlighting areas requiring further improvement. The Board and management remain committed to addressing the identified findings through the implementation of corrective actions aimed at strengthening internal controls, enhancing compliance, and improving overall governance maturity.

Despite ongoing challenges, including financial pressures and infrastructure constraints, MTC continued to advance key service delivery initiatives aimed at improving digital access and inclusion. The rollout of public Wi-Fi infrastructure at strategic locations remains a priority, supporting the City's objective of expanding affordable broadband access and promoting socio-economic participation.

The Board acknowledges that human capital is a critical enabler of performance. Continued efforts to strengthen organisational capacity, stabilise key leadership positions, and enhance employee engagement remain essential to sustaining performance and achieving strategic objectives.

In closing, the Board is encouraged by the progress recorded during the second quarter and remains confident in management's ability to execute the approved strategy while responding effectively to emerging risks and opportunities. On behalf of the Board, I extend my appreciation to the executive management, employees, the Shareholder, and stakeholders for their continued commitment and support as we collectively advance the City's digital transformation agenda.

SECTION 2: CEO'S REPORT**Thedi Moropa****Chief Executive Officer**

I am pleased to present the Metropolitan Tech Company's Quarter Two Performance Report for the 2025/2026 financial year. The second quarter reflects focused progress in strengthening operational performance, improving revenue-related outcomes, and advancing the organisation's strategic mandate as the City of Johannesburg's digital infrastructure enabler. During the period under review, management prioritised initiatives aimed at improving cash collection and revenue sustainability, recognising the critical role these play in stabilising the organisation's financial position. Targeted interventions to strengthen billing integrity, enhance customer engagement, and improve collections yielded positive results during the quarter, contributing to improved cash inflows and reinforcing the organisation's commitment to disciplined financial management.

In parallel, progress was recorded in expanding and stabilising the City's digital connectivity footprint. The number of active network connections increased during the quarter, reflecting continued demand for MTC's services and the organisation's role in enabling reliable connectivity for City departments and Municipal Entities. These achievements underscore the importance of MTC's network infrastructure in supporting service delivery, operational efficiency, and the broader Smart City agenda. Operational performance during the quarter was achieved within a challenging environment characterised by financial constraints, ageing infrastructure, and capacity limitations arising from critical vacancies. Despite these challenges, management remained focused on maintaining service continuity, improving response times, and addressing operational risks through targeted interventions and collaboration with key stakeholders.

Governance and compliance remained central to management's agenda. Continued progress was made in addressing internal audit findings, strengthening internal controls, and reinforcing a culture of accountability and ethical leadership. These efforts support the Board's objective of improving governance maturity and enhancing overall organisational resilience.

Human capital remains a key enabler of performance. Management continued to focus on workforce stability, performance management, and organisational redesign to ensure that the organisation is appropriately capacitated to deliver on its mandate in a sustainable manner.

Looking ahead, management will continue to prioritise revenue enhancement, cash flow stabilisation, network growth, and service reliability, while advancing initiatives that support digital inclusion and the City's Smart and Safer City objectives. These priorities will be pursued alongside ongoing efforts to strengthen governance, financial sustainability, and operational efficiency.

FINAL MTC QUARTER TWO REPORT 25/26

In closing, I would like to thank the Board, employees, the Shareholder, and stakeholders for their continued support and commitment. Together, we remain focused on delivering sustainable value to the City of Johannesburg and advancing its digital transformation agenda.

SECTION 3: CFO'S REPORT

Rajen Chetty
Chief Financial Officer

For the second quarter, MTC realised a deficit before taxation of R161,2m. Total revenue including the subsidy from COJ as of 31 December 2025 is R212,2m, which represents an increase of 22% from the comparative period. Revenue from the rendering of services is higher than budget due to the entity implementing higher-value projects on behalf of CoJ and Municipal Entities during the quarter. Revenue comprises of subsidy of R55,9m and sales of services of R156,3m. Net Interest income was recorded at Rnil due to cash balances held with Treasury being a negative R871m.

The main contributors towards expenditure are interest on the Shareholder Loan and Other expenditures, which include the cost of sales in relation to projects carried out.

Financial Performance and Overview

The Finance department is responsible for two of the entity's KPI's, which are the amount of revenue generated and the cash collection rate. In the second quarter, MTC achieved a cash collection rate of 101%. The entity achieved revenue of R156,3m against a target of R167.52m. It is important to note that from a trend perspective, the collection rates are quite high (> 100%) during the first two quarters of the financial year and tapers off during the third and fourth quarters. This is as a result of the method of calculation, as prescribed by the City, as well as the fact that billing for services starts off slowly at the beginning of the financial year and increases during the financial year, creating a higher outstanding debtors' balance at year-end. The entity endeavors to fast-track projects and ensure that a significant portion of billing is done by the end of the third quarter to enable the entity to collect the outstanding amounts by the end of the fourth quarter.

The cash balances held with the Treasury have decreased to a negative R871m as compared to a negative balance of R698m in the comparative period. The collection of debtors from other CoJ entities remains a challenge. This process remains a priority for MTC by ensuring there is continuous engagement with the various entities. MTC achieved a collection rate of 101% for the quarter. The entity has paid 60% of supplier invoices within the prescribed period. The cash flow challenges experienced by the City have resulted in 167 invoices being paid later than 30 days. The non-payment of supplier invoices within the prescribed period has also led to threats by service providers to down tools, which in turn affects service delivery.

The solvency ratio (0.83) is below the norm of 2 as a result of the Long-term Shareholder Loan increasing whilst the value of Property, Plant, and Equipment is decreasing due to depreciation. The Entity has been allocated a capital expenditure budget of R26,7m for the financial year, which will be used for WIFI commercialization and office upgrades. As of 31 December 2025, these projects are in progress and are expected to be completed in the third quarter.

The resolution of the Shareholder's Loan is still in progress, and an advanced tax ruling is being sought from SARS in respect of the conversion of the loan into equity. MTC has not made any payments during the quarter towards the loan balance.

Annual Audit

The annual audit concluded on 30 November 2025. In prior year the entity achieved an Unqualified audit with findings. There was an overall improvement in the audit outcome due to fewer audit findings as well as improvements in some areas noted by the Auditor General. The entity is aiming for an improved audit outcome for the 2026/27 financial year.

Resolution of UIFWe (Unauthorised, Irregular, Fruitless and Wasteful Expenditure)

The Board has approved the write-off of certain UIFW expenditures for the 2023/24 and 2024/25 financial years. Management was requested by the Board to obtain a legal opinion on these expenditures and after considering the opinion, certain UIFW expenditures were written off. Management is improving controls to reduce the amount of UIFWe that the entity incurs.

Future Outlook

The sale of the network assets was cancelled on 31 December 2024 which necessitated a change in the organisation's strategic direction.

The other key focus areas will be a more targeted approach toward the collection of outstanding internal debtors to improve the working capital of the entity and the resolution of the shareholder's loan.

SECTION 4: CORPORATE PROFILE AND OVERVIEW OF THE ENTITY

NETWORK MODELS ACROSS THE CITY OF JOHANNESBURG

The physical network of MTC across the CoJ, indicating core nodes, is depicted in the diagram below as per Images 1 and 2.

Figure 1: Core Nodes

MTC Scope of Operation:

The demand for MTC services and the vision to grow the network will result in the increase of the core nodes and the concentration of point of presence to accommodate the business requirements of MTC resulting in the fulfillment of the mandate to advance the Smart City initiatives and community digitalization.

SECTION 5: STRATEGIC OBJECTIVES

NATIONAL OUTCOME:

Responsive, Accountable, Effective, and Efficient Local Government

GDS OUTCOME 4:

A High Performing Metropolitan Government that Proactively Contributes to and Builds a Sustainable, Socially Inclusive, Locally Integrated and Globally Competitive Gauteng City Region.

STRATEGIC PRIORITIES:

All these are depicted below:

NDP 2030	GGT 2030	JOBURG 2040
- Building an inclusive economy that creates jobs and reduces inequality - Investing in infrastructure to support economic growth and social development	Priority 1: Economy, Jobs and Infrastructure Priority 2: Safety, Social Cohesion	Outcome 1: Improved quality of life and development driven resilience for all. Outcome 3: An inclusive, job intensive resilient, competitive and smart economy that harnesses the potential of citizens.
MTC STRATEGIC GOALS	STRATEGIC PRIORITIES:	
▪ Financial sustainability ▪ Smart city ▪ Safer city ▪ Good governance ▪ Sustainable service delivery ▪ Sustained economic growth ▪ Active and engaged citizenry	1. Financial Sustainability 2. Energy Mix 3. Sustainable Service Delivery 4. Job Opportunity and Creation 5. Good Governance 6. Infrastructure Development 7. Safer City 8. Active and Engaged Citizenry 9. Sustained Economic Growth 10. Green Economy 11. Smart City	
	PRIORITY PROGRAMMES: 1. Financial Sustainability 2. Good Governance 3. A Safe City 4. A Smart City	

CHAPTER 2

GOVERNANCE

CHAPTER 2: GOVERNANCE

SECTION 1: GOVERNANCE SECTOR

GOVERNANCE FRAMEWORK

Metropolitan Tech Company (MTC) recognizes that managing its affairs with integrity is essential to maintaining the confidence of both the City of Johannesburg Metropolitan Municipality and the public it serves. The Board of Directors and management of MTC are committed to upholding the highest standards of corporate governance.

The Board is satisfied that management has endeavored to comply with all applicable legislation. Accordingly, MTC's administration and decision-making processes adhere to the requirements of the Municipal Finance Management Act (MFMA), the Municipal Systems Act (MSA), and the Companies Act. Furthermore, MTC aligns its governance practices with the principles outlined in the King IV Report on Corporate Governance for South Africa, 2016, which sets out best practices for responsible leadership and ethical business conduct.

The Board of Directors and executive management also subscribe to the Code of Conduct for Directors, as referenced in section 93L of the MSA, MFMA Circular 63, and the King IV Code. MTC is managed ethically and within reasonably determined risk parameters, in line with its public mandate.

KING IV CODE OF CORPORATE GOVERNANCE

The King IV Code promotes an environment of trust, transparency, and accountability, critical elements in ensuring long-term investment, business integrity, and financial sustainability. MTC uses the King IV principles to enhance the effectiveness of its governance structures and ensure responsible corporate citizenship.

CODE OF CONDUCT FOR DIRECTORS AND EMPLOYEES

The conduct of directors and employees of MTC is guided by the Municipal Systems Act, which provides a framework for ethical leadership, conflict of interest management, and the proper discharge of responsibilities by individuals in public service.

ETHICAL LEADERSHIP

In line with the provisions of the MSA, the Board has adopted both a Code of Conduct for Directors and a Code of Conduct for Employees. These documents provide guidance on the expected standard of ethical behavior in the execution of duties across the organization.

The Board considers ethical leadership to be a cornerstone of corporate governance. It promotes these values across all levels of MTC. Directors and employees are expected to uphold high standards of business and personal ethics in all their dealings. MTC, as both a company and a municipal entity, is committed to its core values of: Customer-centrism, Reputability, Innovation, Sustainability, and Professionalism. These values guide MTC's internal culture and external stakeholder engagement.

BOARD CHARTER

The Board has incorporated the City of Johannesburg's Corporate Governance Protocol into its Charter. This protocol defines the relationship between the City, as the sole shareholder, and MTC, as the municipal entity. It is grounded in the principles of the King IV Code and promotes good corporate governance and ethical conduct. The Board Charter outlines the composition, powers, and responsibilities of the Board. The structure of the Board is designed to ensure a balanced mix of knowledge, skills, experience, diversity, and independence—appropriate to the strategic direction of the company.

THE LEGISLATIVE FRAMEWORK

The current legislative framework governing municipal entities came into effect through amendments to the Municipal Systems Act (MSA) and the enactment of the Municipal Finance Management Act (MFMA).

- Chapter 8A of the MSA came into effect on 1 August 2004, outlining provisions specific to municipal entities.
- The MFMA came into effect on 1 July 2004, with transitional arrangements based on municipal capacity.
- The MSA recognizes three types of municipal entities: Private companies (such as MTC), Service utilities, and multi-jurisdictional service utilities.

MTC has been incorporated as a private company (SOC Ltd) in terms of the Companies Act and is wholly owned by the City of Johannesburg. It is therefore subject to the provisions of the Companies Act, in addition to municipal legislation.

KEY LEGISLATION REFERENCED

MUNICIPAL FINANCE MANAGEMENT ACT (MFMA), NO.56 OF 2003

The MFMA governs the financial management of municipalities and their entities. It ensures transparency, accountability, and sound financial governance.

CIRCULAR 63 MFMA

Circular 63 provides guidance on the structure and content of municipal annual reports. It ensures that financial and non-financial performance is reported uniformly across all municipal entities.

MUNICIPAL SYSTEMS ACT (MSA), NO. 32 OF 2000

This Act provides the legal foundation for the operation, governance, and performance management of municipalities and their entities.

SECTION 93L

Section 93L of the MSA outlines the principles governing the ethical conduct of directors and staff in municipal entities.

COMPOSITION, KEY ACTIVITIES, AND BOARD MEMBER REMUNERATION:

1. Board of Directors Mr. Makhate Jonas Nqakalatsane (Appointed 31 July 2024)	Non-Executive Director, Board chairperson
2. Ms. Patricia Jacobs	Non-Executive Director
3. Mr. Jacques Burt Watson	Non-Executive Director
4. Ms. Myrtle Charmaine Williams	Non-Executive Director
5. Mr. Manene Tabane	Non-Executive Director

6. Mr. Ingle Singh	Non-Executive Director
7. Ms. Maphale Victoria Mamogobo	Non-Executive Director
8. Mr. Trevor Goldsmith	Non-Executive Director
9. Mr. Thedi Moropa	Executive Director, Chief Executive Officer
10. Mr. Rajen Chetty	Executive Director, Chief Financial Officer

Table 1: Board members (as of 31 December 2025)

The Board of Metropolitan Tech Company comprises both 2 Executive Directors and 8 Non-Executive Directors, all appointed by the City of Johannesburg, the sole shareholder.

Board Appointments:

All Board members, including the Chairperson, Mr. Makhate Jonas Nqakalatsane, were initially appointed on 31 July 2024, when the new Board was constituted following the end of the previous Board term, and were subsequently reappointed at the Annual General Meeting on 29 October 2025, ensuring continuity for the current financial year.

Composition of the Sub Committees

During the second quarter of the 2025/2026 financial year, the Metropolitan Tech Company Board operated through three duly constituted sub-committees, namely the Audit and Risk Committee (ARC), the Human Resources, Social and Ethics Committee (HSEC), and the Service Delivery Committee (SDC). All sub-committees functioned in accordance with their approved terms of reference.

No changes to the composition of the Board sub-committees occurred during Q2 2025/2026. All members, including Independent Audit Committee members, continued in office throughout the reporting period. No resignations or new appointments were recorded.

Audit and Risk Committee (ARC)

The Audit and Risk Committee comprised six (6) members, consisting of three (3) Independent Audit Committee members and three (3) Non-Executive Directors.

Human Resources, Social and Ethics Committee (HSEC)

The Human Resources, Social and Ethics Committee comprised four (4) Non-Executive Directors.

Service Delivery Committee (SDC)

The Service Delivery Committee comprised five (5) Non-Executive Directors.

The tables below reflect the composition of the Board sub-committees, including Independent Audit Committee members and Non-Executive Directors, as at 31 December 2025.

#	Independent Audit and Risk Committee (ARC),
1	Ms. Taryn-Lee Roman
2	Ms. Devaney Rayners

BOARD ACTIVITIES

The Board and its sub-committees hold ordinary meetings on a quarterly basis. Special meetings may be convened, up to a maximum of three per annum, where the need arises and subject to the City Manager's prior written approval. Each meeting agenda includes a standing item for the declaration of interests to ensure transparency and adherence to governance standards.

During Q2 2025/26 (1 October – 31 December 2025), the Board convened one (1) ordinary meeting, one (1) special meeting, and one (1) Chairperson's quarterly meeting, held on 28 October 2025.

Each sub-committee, namely the ARC, HSEC, and SDC, held one (1) ordinary meeting during the quarter. In addition, the ARC convened one (1) special meeting.

No conflicts of interest were declared during Q2 2025/26, and all attendance registers and declarations of interest are maintained by the Company Secretary and are available for inspection.

The Chairperson of the ARC attended one (1) Group Audit Committee (GAC) meeting on 29 October 2025 and one (1) Group Risk and Governance Committee (GRGC) meeting on 12 November 2025.

BOARD MEETING DESCRIPTIONS

The date and description of each meeting are reflected hereunder:

Date of Meeting	Meeting Description
21 October 2025	Ordinary Board Meeting
16 October 2025	Ordinary ARC Meeting
15 October 2025	Ordinary SDC Meeting
14 October 2025	Ordinary HSEC Meeting
27 November 2025	Special ARC Meeting
28 November 2025	Special Board Meeting

Table 7: Board Fees

Figure 3: MTC Board Committees & Flow

MTC'S REMUNERATION POLICY

MTC compensates its non-executive directors and independent audit committee members per meeting attended according to the CoJ Group Policy on the Governance of the Group Advisory Committees, Municipal Entities' Boards of Directors, and Independent Audit Committees dated 5 October 2021 (CoJ Group Policy on Governance). Prescribed officers, employees of MTC or COJ, receive no additional compensation for their roles.

Senior management remuneration

MTC's executives have four vacant posts, namely Head of Legal, Corporate Strategy & Reporting Executive, Chief Operating Officer and Head of Risk and Compliance. MTC did not make any of the following types of payments during the reporting period in line with the policy:

- Termination of Employment and/or Office
- Sign-on, retention, and restraint payments.

- Commissions and Allowances over and above as prescribed in the City's Remuneration Policy
- Pre-vesting forfeiture and post-vesting forfeiture of remuneration

SECTION 2: HIGH-LEVEL ORGANISATIONAL STRUCTURE

The Approved Organizational structure per line department is outlined below.

Board	
Vacant Positions	
Permanent Positions	
Acting	

Figure 4: Company Organogram

SECTION 3: RISK MANAGEMENT

The Entity maintains and implements Enterprise Risk Management (ERM) in accordance with the provisions of Section 62(1)(c)(i) and 95(c)(i) of Municipal Finance Management Act, the King IV report on Corporate Governance and applicable risk management standards such as the ISO 31000.

In line with ERM the Entity maintained and monitored the following risk registers during the quarter:

- Strategic Risk Register
- Operational risk registers for all departments
- Ethics, Fraud, and Corruption Risk Register

RISK MANAGEMENT IMPLEMENTATION PLAN MONITORING

The Entity continues to implement the Risk Management Implementation Plan as approved by the Board. The plan outlines specific activities to be carried out by the Risk Management and Compliance Unit during the 2025/26 financial year.

For the quarter under review, the Unit achieved a performance rate of 100% against the planned risk management activities. This reflects the progress made in executing the approved initiatives and highlights areas where continued focus is required to meet annual targets:

Details	No of Activities	Activities Implemented	Activities not Implemented
Progress	7	7	0
Percentage		100%	0%

Risk and Compliance Challenges

- Lack of Risk Management tools (System).
- Insufficient human capacity, with a vacancy rate of 75%. A temporary resource was appointed through an acting arrangement to augment operational capacity.

Risk Landscape

Financial / Fiscal Risk - Weak revenue collection: The entity struggles to collect debts owned by the City and Entities - Liquidity problems: The Entity finished the year 2024/25 with negative cash balance - Unauthorised, irregular, fruitless and wasteful expenditure: The shareholder loans continue to accumulate interest adding to fruitless and wasteful expenditure.	Governance, Accountability & Leadership Risk Skills shortages & capacity constraints: The entity has insufficient capacity with high vacancy rate
Service Delivery & Infrastructure Risks Aging infrastructure: The Entity's Network Infrastructure has aged and reached end of life and out of support.	External & Environmental Risks Climate change / disasters: The entity is also vulnerable to floods, droughts, storms, etc. These events damage infrastructure.
Political & Social Risk - Service delivery protests: When basic services fail or are perceived to be failing, communities often respond with protests, which can escalate and further strain the entity's resources. - Political instability: Changes in political leadership, lack of alignment between governing structures, or interference in senior appointments can lead to unstable administration.	Risk of Non-compliance & Legal Exposure Non-compliance with legislation: Procurement irregularities, not observing tender regulations, failing to comply with municipal financial management framework or systems acts

QUARTER 2 2025/2026 FINANCIAL YEAR STRATEGIC RISKS MONITORING

During the year under review, eight (8) Strategic Risks were identified through the Annual Strategic Risk Review exercise. Each risk is briefly described below and ranked according to its **residual risk level**—reflecting the remaining exposure after considering existing controls and mitigation measures.

The table below provides a summary of the identified Strategic Risks, including their descriptions and residual risk rankings:

SR 1 - Service Degradation Risk

Root Causes ▪ End of life and end of support network (Aging network equipment causes slower speeds, higher latency, and frequent outages). ▪ Lack of investment into refurbishment and maintenances of the network 	Consequences: ▪ Inability to achieve network availability KPIs ▪ Inability to achieve the COJ Smart City Objectives due to unreliable network ▪ Business Closure ▪ Inability to attract new business and retain existing business ▪ Business Interruption ▪ Reputational Damage ▪ Financial Loss ▪ Poor service delivery ▪ Large scale of disruption of digitally services
Controls: Reactive Maintenance of the network through managed service.	Residual Risk Rating at Initial Assessment: Very High
Future Treatment Strategies: ▪ Conduct full network audit (capacity, uptime, equipment status) ▪ Commission a full-market research study ▪ Request to for the entity to be exempted from the sweeping of account and channel it back into network upgrades.	

- Conduct feasibility study for revenue-sharing or co-investment models
- Continue with reactive maintenance of the network

SR 2 - Business Interruptions

Root Causes ▪ Lack of Business Continuity Plans and Inadequate Disaster Recovery Plan ▪ Loadshedding and Water Shedding ▪ Natural disasters due to Climate Change ▪ Inadequate facilities to host infrastructure (Carries grade data centre facilities with air conditioning, uninterrupted power supply, security, and site access control). ▪ Legacy System and Outdated infrastructure	Consequences: ▪ Business Interruption ▪ Reputational Damage ▪ Financial Loss ▪ Poor Service Delivery	
Controls: Combined Assurance Framework ▪ Combined Assurance Forum ▪ Facilities Lease Agreement	Residual Risk Rating at Initial Assessment: Very High	
Future Treatment Strategies: ▪ Convey a combined assurance forum ▪ Testing of Disaster Recovery plan ▪ Review Business Impact Analysis ▪ Develop Business Continuity Plan ▪ Procurement of new office facilities ▪ Implementation of the MTC Incident processes (SOP and Manuals)		

SR3 Ineffective Stakeholder engagement / Communication Channels

Root Causes - Inadequate Brand Positioning and Marketing - Lack of stake holder engagement programme 	Consequences: - Uncompetitive - Possible closure - Financial Losses
Controls: Communication plan	Residual Risk Rating at Initial Assessment: Very High
Future Treatment Strategies: - Development of the branding reposition - Brand awareness (Implementation of Marketing Campaign and Brand repositioning) - Developing Sales and Marketing strategy	

SR4 Solvency Risk

Root Causes - Shareholders Loan - Poor collection of outstanding amounts. - Inability to fully enforce the entity's mandate 	Consequences: - Insolvency - Increasing gearing ratio. - Liquidity Issues - Increase In bad
Controls: - Service delivery agreement - Debt Management and Write-off Policy - Subsidy - Discussion on the shareholders loan conversion	Residual Risk Rating at Initial Assessment: High

Future Treatment Strategies:

- Evaluate All Possible Options To Address the Shareholder Loan
- Evaluate And Pursue Grant Opportunities For Network Refreshment
- Implementation of the recommendation to address the Shareholders loan.
- Reconciliation of all Debt owed and submit to the Group for Consideration
- Obtain support or endorsement from the city through a by-law or memo from the City Manager
- Monitoring of the Hotline and investigation of reported cases

SR5 Slow pace of digital transformation and cyber security vulnerabilities

Root Causes ▪ Reactive approached based on the end user request. ▪ Shortage of technical skills to exploit existing resources and opportunities	Consequences: ▪ Business Interruption ▪ Reputational Damage ▪ Financial Loss ▪ Business Continuity Risk 
Controls: ▪ Service delivery agreement	Residual Risk Rating at Initial Assessment: High
Future Treatment Strategies: ▪ Map current ICT solutions offered and utilization across departments and communities ▪ Conduct structured needs assessments with key departments and external user segments ▪ Track digital service gaps through internal COJ usage data and resident service feedback ▪ Develop a prioritised ICT solution roadmap (quick wins + long-term tools) ▪ Develop solutions with stakeholders to enhance end-user. ▪ Innovate - Pilot solutions with feedback loops and refine before scaling ▪ Review the Organisational structure to add critical IT skills ▪ Implementation of smart city projects	

SR6 Ineffective Governance structures

Root Causes ▪ Non implementation of recommendations by assurance providers ▪ Fluidity in the City's Political Leadership Impacting on MTC governance ▪ Constance changes in the regulatory requirements ▪ Outdated Policy and procedure Manuals	Consequences: ▪ Negative Audit Opinion ▪ Reputational damage ▪ Financial Loss 
Controls: ▪ Internal Audit Methodology and Plan ▪ Risk Management Policy and Framework ▪ Board Charter	Residual Risk Rating at Initial Assessment: Medium
Future Treatment Strategies: ▪ Implementing Audit Action Plan for AG Findings ▪ Implementing Audit Action Plan for Internal Audit ▪ Implementation of the work plan	

SR7 Lack of economic growth in the city

Root Causes ▪ Inadequate Enterprise development Strategy and Plan ▪ Insufficient technical Capacity within SMME's. ▪ Budgetary Constraints	Consequences: ▪ Low Economic growth ▪ High employment rate
Controls: ▪ SCM Policy ▪ SMMEs database ▪ DED Report	Residual Risk Rating at Initial Assessment: High
Future Treatment Strategies: ▪ Implement a Enterprise Development Strategy and Plan	

- Appointment of SMMEs on a new panel
- Development of SMMEs
- Create EPWP Jobs

SR8 Inadequate organizational performance

Root Causes ▪ Manual processing of critical business processes (SCM, HR, Finance , Risk, Audit, Operations, SCM. ▪ Inadequate performance management system ▪ Inadequate organisational structure to accommodate career ladder and development ▪ Lack/insufficient human capital ▪ Inadequate integrity checks ▪ Lack of ethical risk culture	Consequences: ▪ Poor service delivery ▪ Financial Losses ▪ Low economic growth ▪ Reputational damage ▪ Non-Compliance with Applicable Legislations ▪ Negative audit findings ▪ Under performance of the organisation 
Controls: ▪ Approved Organisation Structure ▪ Performance Management Policy ▪ Fraud and corruption policy ▪ Approve talent acquisition policy, succession planning, retention strategy, and talent management strategy ▪ Training and development plan ▪ Organisational Design and Development ▪ Debt Management and Write-off Policy ▪ Recruitment policy	Residual Risk Rating at Initial Assessment: High
Future Treatment Strategies: ▪ Digitize Business processes ▪ Evaluation/ Assessment of Senior Management Performance ▪ Review of the organisational Structure to align with the new strategy ▪ Vetting of employees	

- Implementation of fraud prevention plan Conduct Ethics, Fraud and Corruption Awareness workshops
- Signing of performance agreement

SUMMARY OF QUARTER 2 ACTION PLANS IMPLEMENTATION TO MITIGATE STRATEGIC RISKS

Monitoring and review activities were conducted in collaboration with Action Owners for all identified risks to assess the status of implemented risk mitigation plans. This ongoing process provides Management with reasonable assurance regarding the effectiveness of the risk mitigation strategies. Where implementation gaps or challenges are identified, timely interventions can be initiated to address and correct the situation. For the quarter under review, a performance level of 77% was achieved in executing the risk mitigation plans:

Details	Busine ss Operati ons	Finan ce	Comp any Secret ary	Corpor ate Strate gy and Report ing	Inter nal Audit	Risk and Complia nce	Offi ce of the CE O	Total num ber of Actio n Plans	Percent age (%)
Impleme nted	4	2	0	4	1	2	0	23	77%
Not Impleme nted	7	5	0	4	1	0	0	17	23%
Total	11	7	0	8	2	2	0	30	100%

ACTION PLANS DUE FOR QUARTER

No	Risk Name	Root Causes	Action Owner	Intervention s/ Actions to improve management of the risk	Status Achieved / Not Achieved	Quarter 2 Progress	Remedial Action and Action Date
1	Service Degradation Risk	End of life and end of support network (Aging network equipment causes slower speeds, higher latency, and frequent outages.)	CTO/GM Network Operations	Conduct full network audit (capacity, uptime, equipment status)	Not Achieved	Network audit is underway, and core routes have been audited. Progress is currently at 30 percent of the network.	The action plan is scheduled for completion by the end of Quarter 3
		Lack of investment into refurbishment and maintenances of the network	CTO/GM Business Development	Commission a full-market research study	Not Achieved	Dependant on Network audit which is underway.	Start date will be in Quarter 4
			CAE	Request for budget re-prioritisation based on the revenue generated. The request will be made during Budget Steering committee schedule in Quarter 2.	Not Achieved	Due to the current City of Johannesburg Budgeting process, budget allocation is based on the basic needs per department and Group Finance always strive to ensure fair allocation of funds	Deliberations with Group Finance has highlighted that as the contract is about to elapse and COJ is about to embark in a tender process to seek a new financial service provider; part of the process will be to ensure that a sweeping

N o	Risk Name	Root Causes	Action Owner	Intervention s/ Actions to improve managemen t of the risk	Status Achiev ed / Not Achiev ed	Quarter 2 Progress	Remedial Action and Action Date
						however this will be resolved once the City's funding models is sufficient to cater all expenses.	account model is done away totally to allow entities to function based on their generated revenue. Deviation Based on the responses above, it is requested that this controls/ actions are monitored in a long term as they are currently beyond the MTC control and or considered to be deleted from the operational plan
			CFO	Conduct feasibility study for revenue- sharing or co- investment models	Not Achiev ed	Consultant appointment	Discussions are under way with the consultants the process to be concluded in Quarter 3.
			CTO	Continue with reactive	Achiev ed	A Regionalise	

N o	Risk Name	Root Causes	Action Owner	Intervention s/ Actions to improve managemen t of the risk	Status Achiev ed / Not Achiev ed	Quarter 2 Progress	Remedial Action and Action Date
				maintenance of the network		d approach has been implemente d for Maintenanc e on the network which will ensure both reactive and proactive maintenanc e is correctly implemente d.	
2	Solvency Risk	Shareholders Loan	Corporate Strategy and Reporting	Evaluate And Pursue Grant Opportunities For Network Refreshment	Achiev ed	The funding application to the BFI has been completed and submitted. The entity is currently awaiting the outcome of the application.	
		Poor collection of outstanding amounts.	CFO	Reconciliation of all Debt owed and submit to the Group for Consideration	Achiev ed	Reconciliati ons of debtors owed by the City and other entities were	To address this, management has implemented enhanced credit control measures,

N o	Risk Name	Root Causes	Action Owner	Intervention s/ Actions to improve managemen t of the risk	Status Achiev ed / Not Achiev ed	Quarter 2 Progress	Remedial Action and Action Date
						conducted and discussed at the Group level; however, collection of outstanding amounts continues to present a challenge.	including regular monitoring of overdue accounts, engagement with debtor entities, stricter enforcement of payment terms, and targeted collection campaigns to improve cash inflows
3	Slow pace of digital transformation and cyber security vulnerabilities	Reactive approached based on the end user request.	CTO	Map current ICT solutions offered and utilization across departments and communities	Not Achieved	The mapping of ICT solution has started to be implemented	The project to be complemented in Quarter 4
		Shortage of technical skills to exploit existing resources and opportunities	CTO	Conduct structured needs assessments with key departments and external user segments	Not Achieved	Initiated (The process of conducting the need assessment is underway	The assessment will be complemented in Quarter 4
			CTO	Implementation of smart city projects	Achieved	For Q2 3 smart projects	

N o	Risk Name	Root Causes	Action Owner	Intervention s/ Actions to improve managemen t of the risk	Status Achiev ed / Not Achiev ed	Quarter 2 Progress	Remedial Action and Action Date
						were successfully delivered for Pickitup and Metrobus	
4	Ineffective Governance structures	Non implementatio n of recommendati ons by assurance providers	All Executives	Implementing Audit Action Plan for AG Findings	Not Achiev ed	AGSA findings are yet to be address for Operations and Finance Department	Implement the recommendati ons during quarter 3
		Fluidity in the City's Political Leadership Impacting on MTC governance	All Executives	Implementing Audit Action Plan for Internal Audit	Not Achiev ed	Internal Audit findings for Corporate Strategy and Reporting, Finance and Operations department are still outstanding	Implement the recommendati ons during Quarter 3 and Quarter 4
		Constance changes in the regulatory requirements	Head of Risk and Complianc e	Conduct Compliance Monitoring	Achiev ed	Compliance monitoring was conducted as per the compliance universe.	
		Outdated Policy and procedure Manuals	All Executives	Review Policy and procedure manual	Not Achiev ed	HR Policies, Operations and Finance policies are outdated.	Submit the policies to the Board for approval during board meeting

N o	Risk Name	Root Causes	Action Owner	Intervention s/ Actions to improve managemen t of the risk	Status Achiev ed / Not Achiev ed	Quarter 2 Progress	Remedial Action and Action Date
						The review of the policies was conducted during the quarter the policies are waiting for Board approval.	scheduled for January 2026
5	Lack of economic growth in the city	Inadequate Enterprise development Strategy and Plan	CFO/SCM	Appointment of SMMEs on a new panel	Achieved	SMMEs panel appointed	
		Insufficient technical Capacity within SMME's	CFO/SCM	Development of SMMEs	Not Achieved	The development of SMMEs could not happen because of the audit	SMMEs will now be developed by 28 February 2026
		Budgetary Constraints	Corporate Strategy and Reporting	Create EPWP Jobs	Not Achieved	8 EPWP jobs created in the Quarter 2.	
6	Business Interruptions	Lack of Business Continuity Plans and Inadequate Disaster Recovery Plan	CAE	Convey a combined assurance forum	Achieved	Combined assurance forum was successfully convened	
		Loadshedding and Water Shedding	CTO	Testing of Disaster Recovery plan	Achieved	Disaster recover plan tested and passed.	

N o	Risk Name	Root Causes	Action Owner	Intervention s/ Actions to improve managemen t of the risk	Status Achiev ed / Not Achiev ed	Quarter 2 Progress	Remedial Action and Action Date
		Inadequate facilities to host infrastructure (Carries grade data centre facilities with air conditioning, uninterrupted power supply, security, and site access control). Unrest	Corporate Strategy and Reporting	Procurement of new office facilities	Achieved	The new office facilities was procured. The process of preparing the offices is underway the move is anticipated for end of January 2026.	
		Legacy System and Outdated infrastructure	CTO	Implementatio n of the MTC Incident processes (SOP and Manuals)	Achieved	All SOP's and policies have been updated and will be reviewed annually	
7	Ineffective Stakeholder engagement / Communication Channels	Inadequate Brand Positioning and Marketing Lack of stake holder engagement programme	Corporate Strategy and Reporting	Brand awareness (Implementati on of Marketing Campaign and Brand repositioning)	Not Achieved		
8	Inadequate organization al performance	Manual processing of critical business processes	Corporate Strategy and Reporting	Evaluation/ Assessment of Senior Management Performance	Achieved	Performanc e Evaluation were conducted	

N o	Risk Name	Root Causes	Action Owner	Intervention s/ Actions to improve managemen t of the risk	Status Achiev ed / Not Achiev ed	Quarter 2 Progress	Remedial Action and Action Date
		(SCM, HR ,Finance ,Risk, Audit, Operations, SCM.	Corporate Strategy and Reporting	Review of the organisational Structure to align with the new strategy	Not Achieved	The conducting of job analysis was successfully undertaken by the OD team. As part of the process, MTC's job descriptions were revised and updated to ensure alignment with organisational needs. This includes a detailed review and documentation of tasks, responsibilities, required skills and knowledge, work environment and performance standards necessary for the successful	HR has drafted a report under HR Matters to management for resolution and prioritisation.

N o	Risk Name	Root Causes	Action Owner	Intervention s/ Actions to improve managemen t of the risk	Status Achiev ed / Not Achiev ed	Quarter 2 Progress	Remedial Action and Action Date
						execution of each role.	
		Lack of ethical risk culture	Head of Risk and Compliance	Implementatio n of fraud prevention plan Conduct Ethics, Fraud and Corruption Awareness workshops	Achiev ed	Ethics, fraud, and corruption awareness was promoted through the dissemination of an awareness message to employees via Blackboard. "	

SUMMARY OF KEY RISKS

A summary of the current ratings and changes since the initial assessment of strategic risks, including their alignment with the approved Risk Appetite classifications and established risk tolerances, is provided below:

No	Risk Name	Risk Rating at initial Assessment				Trend	Q1 Residual Risk Rating	Q2 Residual Risk Rating	Risk Appetite Classification			Within Risk Tolerance		Desired Risk Rating	Risk Indicators

															Vacancy Rate	30%	17,6%

THE HEAT MAP BELOW DEPICT RESIDUAL RISK EXPOSURE IN QUARTER 2 AFTER THE IMPLEMENTATION OF RISK MITIGATION STRATEGIES:

FACTORS AFFECTING MITIGATION RISKS

The entity's risk profile performance is influenced by several key factors that affect management's ability to effectively mitigate risks:

- **Large-Scale Interruption of Digital Services:**

The continued reliance on outdated and deteriorating infrastructure—specifically End-of-Life (EOL) and End-of-Support (EOS) equipment—remains a significant challenge. This situation hampers the entity's ability to meet its network availability target of 98%. Additionally, incidents of vandalism, damage, and theft of network infrastructure further contribute to network instability and performance degradation. Insufficient Budget: The lack of adequate funding restricts the entity's capacity to properly maintain and refurbish network assets that have reached their EOL/EOS status, further exacerbating infrastructure risks.

- **Revenue Collection Challenges:**

Ongoing difficulties in collecting outstanding revenue from the City and other entities continue to negatively impact liquidity management. This, in turn, constrains the entity's ability to meet its short-term financial obligations.

- **Shareholder's Loan:**

The continued accumulation of interest on the shareholder loan is increasing the entity's debt burden, leading to fruitless and wasteful expenditure. This situation heightens the

Going Concern risk. Active and sustained engagement with the shareholder is critical to resolving this issue and ensuring long-term financial sustainability.

▪ **Organisational Redesign:**

The long-overdue review of the organizational structure remains critical to ensuring the entity is adequately resourced and appropriately capacitated to fulfill its mandate effectively.

EMERGING RISKS / MATERIALISED

During the quarter under review, the following emerging and materialized risks were identified based on matters raised in the External Audit Report:

Risk Name	Risk Description	Root Causes	Consequences	Current Controls	Residual Risk Rating	Management Action Plan
Regression in Audit Outcomes due to Weak Compliance, Financial Reporting, and Performance Information Controls	There is a risk that the entity may continue to experience stagnant audit outcomes,	Inadequate monitoring of compliance with MFMA, Treasury Regulations, and related legislation	Continued regression or stagnation in audit outcomes Increased risk of qualified audit opinions	Established Audit Action Plan addressing prior-year AGSA findings	High	Strengthen compliance monitoring and legislative checklists
	recurring material findings on performance information, and regression in the quality of financial	Weaknesses in record-keeping and supporting documentation	Reputational damage and reduced public confidence	Monthly and quarterly financial reporting processes		Enhance quality assurance reviews for financial statements and performance reports before submission
		Insufficient review and	Increased scrutiny and	Internal Audit		Audit interim

Risk Name	Risk Description	Root Causes	Consequences	Current Controls	Residual Risk Rating	Management Action Plan
	statements.	quality assurance processes prior to submission of financial statements and performance information	intervention by oversight bodies Potential financial losses, irregular expenditure, and compliance penalties	reviews on compliance, financial reporting, and performance information Oversight by the Audit and Risk Committee		Annual Financial Statements
		Limited consequence management for repeated audit findings		Policies and procedures for financial management and performance reporting		Implement consequence management for repeat audit findings
		Capacity constraints and skills gaps in key finance and performance management functions				Implemented a co-sourcing model to address capacity constraints

Risk Name	Risk Description	Root Causes	Consequences	Current Controls	Residual Risk Rating	Management Action Plan
						and skills gaps within the finance and performance management functions. The approach ensures continuity, compliance, and quality, while retaining accountability within management and incorporating structured skills transfer to build internal capacity over time

Risk Name	Risk Description	Root Causes	Consequences	Current Controls	Residual Risk Rating	Management Action Plan
		Ineffective implementation of prior-year audit action plans				Track and report progress on audit action plan quarterly to Audit & Risk Committee

QUARTER 2 OPERATIONAL RISK MONITORING 2025/2026 FINANCIAL YEAR

Management conducted ongoing operational risk monitoring during the quarter under review through monthly and quarterly assessments, to ensure that identified operational risks remained within the approved risk appetite and tolerance levels.

Below are the outcomes of the top five operational risks:

No	Risk Name	Description	Residual Risk Exposure	Mitigation Effectiveness	Status as at 31 December 2025
1	Business Continuity Risk	Unplanned disruptions (e.g., fire, water cuts, power outages) affecting operation	High	Moderate	The entity continues to implement remote working arrangements as its primary strategy to ensure continuity of service delivery, while the preparation and fit-out of the new office

No	Risk Name	Description	Residual Risk Exposure	Mitigation Effectiveness	Status as at 31 December 2025
					premises remain in progress.
2	Revenue Collection Challenges	inability to collect debts from the City and entities, affecting liquidity	Very High	Low	Reconciliations of debtors owed by the City and other entities were conducted and discussed at the Group level; however, collection of outstanding amounts continues to present a challenge. To address this, management has implemented enhanced credit control measures, including regular monitoring of overdue accounts, engagement with debtor entities, stricter enforcement of payment terms, and targeted collection campaigns to improve cash inflows
3	Ageing Infrastructure Risk	Reliance on End of Life and End of Support infrastructure affecting	Very High	Low	Network maintenance is conducted in response to reported service interruptions, with incidents logged,

No	Risk Name	Description	Residual Risk Exposure	Mitigation Effectiveness	Status as at 31 December 2025
		network availability			assessed, and addressed in accordance with established operational procedures to ensure the continuity and reliability of network services. Insurance claims were submitted in respect of the theft incident that occurred during the month of October.
4	Shareholder Loan Debt Burde	Accumulating interest increasing financial strain and Going Concern risk	Very High	Low	The shareholder's loan continues to pose a financial strain and liquidity risk for the entity. To address this, a service provider has been appointed to explore viable options for managing and restructuring the loan. Submissions have also been made to SARS to facilitate conversion of the loan without adverse tax

No	Risk Name	Description	Residual Risk Exposure	Mitigation Effectiveness	Status as at 31 December 2025
					implications.
5	Vacancy Rate / Organisational Capacity	Delayed organisational redesign limits resource capacity	Very High	Low	The organisational redesign was concluded and is pending review and consideration to ensure alignment with the organisational strategy.

BUSINESS CONTINUITY MANAGEMENT (BCM)

The entity continues to implement its business continuity strategy through remote working arrangements while the preparation and fit-out of the new office facilities are in progress. These measures ensure that critical services remain uninterrupted and operational risks associated with office relocation or facility unavailability are mitigated.

A Business Impact Analysis (BIA) is scheduled to commence in the third quarter, which will include a comprehensive assessment of the new office facilities and associated operational dependencies.

Risk mitigation measures and monitoring include:

- Maintaining remote working protocols to ensure continuity of key services.
- Regular monitoring and reporting of operational performance during the transition period.
- Implementation of IT and communication systems to support remote operations.
- Contingency planning for critical functions and high-risk activities during facility preparation.
- Periodic review of BCM measures by senior management to ensure alignment with operational and strategic objectives.

These measures collectively ensure that the entity is able to sustain operations and respond effectively to potential disruptions while transitioning to the new office facilities.

RISK FINANCING

The Entity continues to mitigate the financial impact of risk events—including property damage, liability claims, business interruptions, and other unforeseen losses—through a comprehensive insurance portfolio:

Infrastructure Claims

One infrastructure claim was submitted during the quarter under review:

Date	Incident type	Description	Progress	Case Number	Amount
18 October 2025	Network Damage	Route was vandalized at several locations (845m,1,6km and 2,1km) due to copper theft	Claim submitted to insurance	CAS 157/11/2025	R327 941,92

QUARTER 2 ETHICS, FRAUD AND CORRUPTION MONITORING

MTC conducts its business in accordance with the principles of fairness, honesty, openness, decency, integrity, and respect. The Entity maintains a zero-tolerance stance on fraud and corruption. All allegations of fraud, corruption, and unethical conduct are thoroughly investigated. MTC encourages its employees, stakeholders, and the broader community to report improper or illegal activities. It is the Entity's policy to fully support and investigate such disclosures in line with its commitment to transparency and accountability.

During the quarter under review, MTC raised awareness on matters related to unethical behaviour, fraud, and corruption by issuing awareness message to employee on black board through a message.

Furthermore, monitoring of the Ethics, Fraud and Corruption risk was conducted to ensure identified Ethics, Fraud and Corruption Risk are adequately managed

The table below presents the Quarter 2 progress in implementing ethics, fraud, and corruption mitigation strategies:

N o	Focus Area	Risk Name	Root Causes	Resid ual Risk Expo sure	Resid ual Risk Expo sure	Actions to improv e manag ement of the risk	Action Owner	Quarte r 2 Progre ss Report	Remedi al Action

Table 8: MTC Policy Oversight Flow 1

MTC ICT policies were compiled in respect of their alignment to ICT governance and impact on ICT capability maturity. Where the need for comprehensive policy reviews and updates will be identified and applied. A summary of the policies is as follows:

MTC ICT POLICY	POLICY BRIEF
MTC ICT Governance Framework	The governance framework aligned with the Department of Public Services Administration for corporate governance of ICT
• MTC Acceptable Use Policy	A policy that governs the use of ICT tools of trade covering the hardware, software, and data assets
• MTC IT Service Management Policy	A policy that governs the management of the service to customers of MTC. The policy aligned with the Information Technology Information Library for ICT service
• MTC Change Control Policy	A policy that governs how the changes in the ICT environment should be managed to reduce the impact on the network and customer business
• MTC Incident Management Policy	A policy that governs how the incidents that occur on the network, resulting in outages or service degradation, should be handled to improve turnaround times
• MTC Information Policy	A policy that governs how the digital (ICT) data asset should be managed to ensure proper classification, security, and access by authorized people or agencies
• MTC IT Service Continuity Policy	A policy that governs how MTC should ensure that the ICT environment supporting both internal and external customers can continue functioning during a disaster
• MTC Security Policy	A policy that governs the protection of ICT assets including hardware, software, and data

Table 9: MTC ICT policies

With the implementation of the policies above, MTC will be able to strengthen its ICT control thereby improving the delivery service, and customer experience resulting in revenue generation.

Policies worked on this Quarter:

1. Talent Acquisition Policy	In Progress
2. MTC Payroll Policy	In Progress
3. Performance Management Policy	In Progress
4. Remuneration Policy	In Progress

Table 10: Policies Worked on this quarter

SECTION 5: COMPLIANCE WITH LAWS & REGULATIONS

The Board exercises overall oversight over the MTC and is responsible for ensuring that the MTC complies with all applicable laws and regulations, and considers adhering to non-binding rules, codes, and standards. The Risk and Compliance Unit activities are guided by the compliance plan which outlines the key compliance priorities for the financial year. For the quarter under review, a performance of 100% was achieved against the compliance plan

Details	Quarter 2 Number of Planned Activities	Activities Implemented	Activities Not Implemented
Target	15	15	0
Percentage	100%	100%	0%

QUARTER 2 COMPLIANCE WITH APPLICABLE LAWS AND REGULATIONS IN LINE WITH THE COMPLIANCE UNIVERSE.

Summary of compliance with applicable acts and regulation for the quarter ending 31 December 2025:

Details	Total	Complaint	Non-Complaint
Number of regulations and acts monitored	46	40	6
Percentage	100%	87%	13%

MFMA Section 65(2)(e) 30-day supplier payment requirement

The following information consists of payments made to service providers or creditors for October, November and December 2025

The detailed summary of the transactions is as follows:

Month	October-2025		November-2025		December-2025		Total	
	Number	Value ®	Number	Value ®	Number	Value ®	Number	Value (R)
Payments within 30 days	39	R21 769 007,42	9	R11 917 690,85	64	R58 607 510,95	112	R92 294 209,22
Payments made after 30 days	10	R23 839 071,98	3	R23 954 971,54	154	R253 889 956,87	167	R301 684 000,39
Total	49	R45 608 079,40	12	R35 872 662,39	218	R312 497 467,82	279	R393 978 209,61

Reason for late payment:

Certain invoices were paid beyond the 30-day period due to inadequate cash allocations, which were insufficient to cover the total amounts payable

Corrective action:

The entity will submit updated and dated weekly cash flow projections to the Treasury in an effort to secure sufficient funding to settle all outstanding invoices within the prescribed timeframes.

Employee Declaration of Interest

All employees have submitted their declarations of financial interests in accordance with the Code of Conduct for Municipal Employees and the provisions of the Municipal Systems Act, 2000.

Status of Legislated Tax Compliance

The entity's tax compliance status is in good standing, with the PIN valid until 28 August 2026. This follows the successful submission of all statutory tax returns in accordance with SARS requirements.

Unauthorized, Irregular, Fruitless, and Wasteful Expenditure

The table below summarizes the fruitless and wasteful expenditure incurred as a result of interest charges on the Shareholder's Loan and overdraft facility:

Details	October	November	December	Total
Overdraft	R4 100 422,34	R4 402 871,08	R4 402 871,08	R12 906 164,50
Interest on Shareholders Loan	R 24 202 972,00	R 24 202 972,00	R 24 202 972,00	R72 608 916,00
	R 28 303 394,34	R 28 605 843,08	R 28 605 843,08	R85 515 080,50

Unauthorized Expenditure:

The entity did not incur any unauthorized expenditure during the quarter under review.

Irregular Expenditure:

The entity did not incur any irregular expenditure during the quarter under review.

Deviations

No deviations were recorded during the quarter under review

Legislative Compliance Requirement:

MTC continues to monitor approved regulatory legislation in the compliance universe. During the quarter under review, the prioritized core legislations which have significant implications for non-compliance were monitored:

Occupation Health and Safety Act No.85 of 1993

Continuous monitoring of the Occupational Health and Safety Act is conducted through follow-up on the Physical Risk Assessment Report to assess the extent the entity went in addressing the findings to ensure compliance with the Act and Safety of Employees, Visitors, and Assets of the Entity. Below is a summary of findings noted against the requirement of the act:

No	Requirement of the Act	Finding	Quarter 2 Progress
1	<i>Section 19 of the Health and Safety Act:</i>	Functionality of the Health and Safety Committee It was noted that the Entity has established a Health and	Not Resolved A physical meeting was initially scheduled for December 2025; however,

No	Requirement of the Act	Finding	Quarter 2 Progress
	<i>An employer shall in respect of each workplace where two or more health and safety representatives have been designated, establish one or more health and safety committees and, at every meeting of such a committee as contemplated in subsection (4), consult with the committee with a view to initiating, developing, promoting, maintaining and reviewing measures to ensure the health and safety of his employees at work.</i> <i>Health and Safety Committee shall hold meetings as often as may be necessary, but at least once every three months, at a time and place determined by the committee.</i>	Safety Committee; however, the committee is not functional, as evidenced by the absence of regular meetings, documented agendas and minutes, and monitoring of health and safety matters. This may result in inadequate oversight of occupational health and safety risks and non-compliance with applicable legislation.	due to ongoing office relocation processes, it was resolved that the in-person engagement be deferred to the third quarter. In the interim, preparatory work continued, including the development of draft Terms of Reference, which were benchmarked against those of the Shareholder. These will be presented to the Committee for consideration and endorsement in the next quarter
2	<i>General Safety Regulations 3.4 and 5</i> <i>(2) Where more than five employees are employed at a workplace, the employer of such employees shall provide a first aid box or boxes at or near the workplace which shall be available and accessible for the treatment of injured persons at that workplace. (3)(a) Taking into account the type of injuries that are likely to occur at a workplace, the nature of the activities performed and the number of employees employed at such workplace, the employer shall make sure that the first aid box or boxes contemplated in sub-regulation (2) contain suitable first aid equipment which include at least the equipment listed in the Annexure hereto. (b) Such an employer shall make sure that only articles and equipment contemplated in sub-regulation (a) or other similar equipment or medicine is kept in the first aid box or boxes</i>	Inadequate and Expired First Aid Equipment It was noted that the Entity has three (3) First Aid boxes containing expired First Aid equipment, with expiry dates ranging from 2020 to 2021. One of these First Aid boxes is placed in the main kitchen area and is readily accessible for use by employees, despite containing expired medical supplies. This condition indicates non-compliance with occupational health and safety requirements and may compromise the Entity's ability to respond effectively to workplace injuries or medical emergencies	Not Resolved Due to budgetary constraints, the office was unable to procure first aid kit boxes. The matter will be addressed through advocacy for funding during the annual budget process.

No	Requirement of the Act	Finding	Quarter 2 Progress
3	<i>First aid, emergency equipment and procedures:</i> <i>6) An employer shall affix a prominent notice or sign in a conspicuous place at a workplace, indicating where the first aid box or boxes are kept as well as the name of the person in charge of such first aid box or boxes.</i>	First Aid Notices or Signs not displayed in the Entity's facility. It was observed during the inspection that First Aid Signs are not displayed within the facility where the first aid boxes are kept.	Not Resolved. The installation of First Aid signage has been included in the scope of the space planning project for the new office facilities. The matter will be addressed upon completion of the office preparation and fit-out process.
4	SANS 10400- T: 2011 4.37 Portable fire extinguishers 4.37.1 A building that contains an occupancy given in Table 11 shall, for the relevant occupancy and floor area, be provided with portable fire extinguishers in unobstructed positions approved by the local authority.	Fire extinguishers are not mounted on the wall. During the inspection, it was noted that fire extinguishers are placed on the floor and not mounted on the wall for easy access during fire incidents.	Not Resolved Overall compliance with the Occupational Health and Safety Act (OHS Act), including the adequate placement of fire extinguishers, has been incorporated into the scope of the space planning project for the new office facilities. The matter will be fully addressed upon completion of the office preparation and fit-out process.
5	<i>Regulation A15 of the South African Standard Code of Practice for the applicable national building regulations state that:</i> <i>Maintenance and Operations</i> <i>(a) The owner of any building shall ensure that any mechanical equipment, facility or any service installation provided in or in connection with such building, under these regulations or under any building by-law which was in operation before the coming into operation of the Act, shall be maintained in a safe and functional condition. (b) Such owner or any person appointed by such owner to be in control of such building shall</i>	Inadequate maintenance of the offices. During the physical inspection of the offices, the following were noted: a) A cracked wall was noted in the main kitchen. b) A damaged ceiling was observed in several offices including the company secretary's office and storerooms.	Not Resolved The Entity has procured new office facilities, and the space planning work is currently underway. The new lease agreement clearly defines the responsibilities of each party with regard to maintenance. The matter will be addressed upon completion of the office preparation and fit-out process.

No	Requirement of the Act	Finding	Quarter 2 Progress
	<i>ensure that where such equipment, facility or installation is designed to be kept operating during the times of normal occupancy of the building, it is kept operating in such a manner as to attain any standard of performance prescribed in these regulations or any by-law for such equipment or installation</i>	c) Signs of possible roof leakages were noted in several offices and the Kitchen. d) Damaged lights were noted in some of the offices which need replacement of lamps.	
6	<i>Section 95 (c) of the Municipal Finance Management Act of 2003 states that the accounting officer of a municipality entity is responsible for managing the financial administration of the entity, and must for this purpose take all reasonable steps to ensure that the entity has and maintains effective, efficient and transparent systems of finance and risk management and internal control</i>	Poor security controls. During the inspection of the security environment within the entity's main facility/offices, the following security weaknesses were noted: a) Inadequate Security Surveillance System. Although CCTV Cameras are installed within the facility/offices the system is unable to transmit a signal or record a set of events, the CCTV cameras are not monitored through a monitor (screen). b) CCTV cameras are not strategically placed. It is noted that the CCTV cameras are	Not Resolved The Entity has procured new office facilities, and the space planning work is currently underway. The new lease agreement clearly defines the security responsibilities, which are shared between the landlord and the Entity. The Entity has addressed general security controls as part of the space planning and office preparation project, which is currently in progress. The matter will be fully addressed upon completion of the project.

No	Requirement of the Act	Finding	Quarter 2 Progress
		not strategically located to cover all open areas within the facility. It was observed during the inspection that the Biometric authentication system at the main door is not functional to prevent unauthorized access to the facility/offices.	

Effect of non-compliance

The entity remains at risk of exposure to the following non-compliance consequences:

- A fine not exceeding R50,000 and/or imprisonment for a period not exceeding 1 year for certain statutory violations.
- Any employer or user of a workplace who, through an act or omission, causes injury to a person at the workplace may be guilty of an offence. If the act or omission would have constituted culpable homicide, had it resulted in death, the employer or user may be prosecuted accordingly.
- The penalty for this offence is a fine not exceeding R100,000 and/or imprisonment for a period not exceeding 2 years.

Employment Equity Act No 55 of 1998

The entity recognises that Employment Equity (EE) extends beyond legal compliance. The Employment Equity Act presents a valuable opportunity to enhance service delivery by ensuring that the skills profile of business unit employees is optimally developed.

The entity's current Five-Year Employment Equity Plan was approved in November 2020

Activity	Progress	Remedial Action
Employment Equity (EE) Target not aligned to EAP	The matter remains unresolved, as the entity is still non-compliant with its Employment Equity (EE) targets, which have not yet been amended to align with the Economically Active Population (EAP) demographics. Engagements are ongoing with the Department of Labour and the City's EE Forum to address the non-compliance and work towards alignment.	Resolve the non-compliance in line with the recommendations provided by the Department of Labour and the City EE Forum, ensuring that the entity's Employment Equity targets are amended to align with the Economically Active Population (EAP) demographics.

Risk of noncompliance with the requirement of Employment Equity Act No 55 of 1998

- A fine not exceeding R50 000 and/or imprisonment for a period not exceeding 1 year.
- Any employer or user of a workplace who does or omits to do an act, thereby causing any person to be injured at a workplace is guilty of an offence if that employer or user would in respect of that act or omission have been guilty of the offence of culpable homicide had that act or omission caused the death of the person.
- The penalty for this offence is a fine not exceeding R100 000 and/or imprisonment for a period not exceeding 2 years.

Companies Act

- Compliance with the requirements of the Company Act was assessed through a compliance questionnaire based on the requirements. Below are the results of wherein the entity is 95% compliant:

Details	No of Questions	Compliant Responses	Non-Compliant Responses
Results	21	20	1
Percentage	100%	95%	5%

National Archives and Records Service of South Africa Act (Act no 43 of 1996) (NARSSA)

Compliance with the requirements of the National Archives and Records Service of South Africa Act has been highlighted as an emerging risk for the City and its Entities. The entity has developed a Checklist to assess compliance with the requirements of the Act.

No#	Details	Quarter 2 Compliance		Corrective Action
		YES	NO	
1	Does the Entity have a records management policy?		No	The policy is to be developed by 30 April 2026.

No#	Details	Quarter 2 Compliance		Corrective Action
		YES	NO	
2	Is the policy endorsed by the Gauteng Provincial Archives and Records Service?		No	Once the policy is developed it will be submitted to Gauteng Provincial Archives and Records Service for endorsement.
3	Is the records management policy reviewed at regular intervals?		No	The policy is to be developed by 30 April 2026.
4	Does the Entity have an approved File Plan (electronic Records system or paper-based system)		No	The file plan will be developed once the policy is in place. 30 April 2026 Financial year.
5	Does the Entity have an electronic Records system or a paper-based system?	Yes		The Entity stores its record electronically on SharePoint.
6	Does the Entity have a dedicated records management storage space?	Yes		
7	Have relationships with other key information management stakeholders (e.g.IT, Risk, Internal Audit, MNE sections) in the organisation been identified and developed?	Yes		
8	Does the Entity have a schedule for paper-based records?		No	To be covered by the Policy.
9	Does the Entity have terminated records?		No	To be covered by the Policy.
10	If yes, does it have disposal authority?		No	To be covered by the Policy.
11	Does the institution carry out the disposal authority frequently?		No	To be covered by the Policy.

No#	Details	Quarter 2 Compliance		Corrective Action
		YES	NO	
12	Does the Entity have file registers in place/system-based?		No	To be covered and directed by the Policy.
13	Is the register kept up to date?		No	To be covered and directed by the Policy.
14	Are the destruction dates of all non-archival records recorded here?		No	To be covered and directed by the Policy.
15	Is the register kept up to date?		No	To be covered and directed by the Policy.

PROTECTION OF PERSONAL INFORMATION

The entity is compliant with the requirements of POPIA and is continuing to implement and monitor the approved POPIA Policy and Manual.

CHAPTER 3

SERVICE DELIVERY PERFORMANCE

CHAPTER 3: SERVICE DELIVERY PERFORMANCE

SECTION 1: HIGHLIGHTS AND ACHIEVEMENTS

ACHIEVEMENTS	NON-ACHIEVEMENT
Key Achievements - Delivery of a customer engagement solution at Metrobus (CSD app) - Delivery of a customer engagement solution at Pikitup (CSD app) - Cash collection rate is above the target - Actual sales for the year to date are above budget due to increased business during the quarter	- Underperformance on Internal Debtor Collections Debtor days high with increase in receivables. - Low Revenue from External Customers A large proportion of revenue still stems from internal customers, with limited progress on external market penetration due to lack of capital support. - Fruitless and Wasteful Expenditure R85m Fruitless and Wasteful Expenditure declared for Interest on Shareholders loan and Overdraft facility - 30-day supplier payment requirement 30-day supplier payment requirement: 167 invoices paid after 30 days due to limited cashflow allocation

Table 11: Highlights and Achievements

SECTION 2: SERVICE DELIVERY CHALLENGES

MTC continues to face some challenges while delivering services to customers emanating from the following:

- Increased rate of vandalism
- Power outages affecting MTC services resulting in network availability targets not being achieved. The high rate of network vandalism results in downtime.
- Aged and dilapidated equipment resulting in network downtimes.
- Infrastructure Degradation
- Insufficient Capital budget allocation to MTC leads to the inability to maintain the network and equipment as well as having the ability to grow/expand the network.

CASH FLOW AND LIQUIDITY CONSTRAINTS

- High levels of receivables due to delayed payments from internal clients continue to restrict cash availability.
- Limited cash-on-hand has impacted on the ability to promptly pay service providers and fund planned operations.
- Due to liquidity challenges at the City, MTC could not receive funds in time to ensure that all payments are made within the stipulated 30 days.

LOW CAPITAL EXPENDITURE IMPLEMENTATION

- The entity was allocated a minimal capital budget and therefore is unable to invest adequately in capital expenditure to improve the condition and performance of the network and thereby attract external customers.

HIGH DEBTOR DAYS

- Lack of enforcement or effective escalation mechanisms for internal customer collections worsens financial strain.
- The collection of internal debtors (CoJ departments and entities) has been a challenge for MTC. A request has been made to the office of the COO to assist the entity in collecting

these outstanding amounts. This matter has been escalated to the office of the CM. The Office of the GCFO is also assisting with the payments from internal debtors.

AUDIT FINDINGS AND COMPLIANCE RISKS

- Although most findings were addressed, recurring issues such as interest on the shareholder loan continue to result in fruitless and wasteful expenditure.

BUDGET OVERRUNS

- Over-expenditure on employee-related costs and repairs and maintenance places pressure on the approved budget, with limited reprioritization flexibility.

UNDERPERFORMANCE ON SOME KPI'S

- The underperformance of certain KPIs is attributable to non-compliance and the delayed implementation of approved risk mitigation strategies.
- Revenue generation declined during the reporting quarter.
- Network availability challenges were experienced; however, management has implemented mitigation measures to address these issues.

SECTION 3: RESPONSE TO STRATEGIC DIRECTION

- With MTC's new strategic direction, focused on refreshing and commercializing the network infrastructure, the entity aims to achieve greater operational efficiency, financial sustainability, and enhanced service delivery across the City.
- These initiatives are aligned to the strategic goals of the City, particularly those aimed at promoting economic growth, digital inclusion, sustainable infrastructure development, and improved service delivery.

Table 12: Alignment to the New Strategic Agenda 2021 – 2026

COJ's Strategic Overview			
	LONG TERM PLANNING	MEDIUM-TERM PLANNING	
VISION	Growth & Development Strategy	Integrated Development	
<i>Johannesburg-World Class African City of the Future-a vibrant, equitable African city, strengthened through its diversity, a city that provides real quality of life; a city that provides sustainability for all its citizens; a resilient and adaptive society. Joburg. My City-Our Future</i>	(4 Outcomes) 1. Improved quality of life and development-driven resilience for all 2. Provide a resilient, liveable, sustainable urban environment underpinned by smart infrastructure supportive of a low carbon economy 3. An inclusive-job intensive, resilient, competitive, and smart economy that	Strategic Priorities 1. Good Governance 2. Financial Sustainable 3. Safer City 4. Job Opportunity and Creation 5. A Smart City	MTC Strategic Goals 1. MTC aims to provide fast, reliable and affordable digital network connectivity that enables the adoption of smart ICT innovation by the City 2. Leverage state-of-the-art technology to gather real-time data and proactively address a range of incidents including fire safety, traffic management, law enforcement, and service delivery issues 3. Enhance sound financial management, sustainability, and good governance. 4. Strive to minimize governance failures that involve non-compliance to regulations and statutory law
MISSION			
<i>The City of Johannesburg commits itself to proactive delivery and the creation of a city environment in</i>	harnesses the potential of		

COJ's Strategic Overview			
	LONG TERM PLANNING	MEDIUM-TERM PLANNING	
VISION	Growth & Development Strategy	Integrated Development	
2040 that is liveable. It aims to achieve this through long-term 2040 plans, targeted programs	citizens 4. A high performing metropolitan government that proactively contributes to and builds a sustainable, socially inclusive, locally integrated, and globally competitive Gauteng City Region		

MTC is responsible for enabling the many Smart City Programmes in the City and rendering the full spectrum of Networking services and other incidental services to the City and many of its Municipal Entities. The table below gives a view into MTC's response to the mayoral priorities

MAYORAL PRIORITY	WHAT IT MEANS FOR MTC & HOW IT CONTRIBUTES	STRATEGIC PROGRAMME
A Smart City	•MTC to provide fast, reliable, and affordable digital network connectivity, to enable the adoption of smart ICT innovations by the city to provide services and solve city and residents' problems.	• A 'Smart' City of Johannesburg, that can deliver quality services to citizens in an efficient and reliable manner
Safer city	A safe and secure city A city characterized by social inclusivity and enhanced social cohesion.	•24/7 Digital network availability to support the functioning of crime-fighting CCTV Devices and other IT systems, related communications technologies, and control rooms.

MAYORAL PRIORITY	WHAT IT MEANS FOR MTC & HOW IT CONTRIBUTES	STRATEGIC PROGRAMME
		•MTC to create value-added smart crime-fighting technologies & Apps that will enable stakeholders to collaborate to monitor areas, provide alerts and share capacity.
Financial Sustainable	A high-performing metropolitan government that proactively contributes to and builds a sustainable, socially inclusive, locally integrated, and globally competitive Gauteng City Region	•MTC creates EPWP opportunities, jobs through SMME development, and apprenticeship programs for the youth.
Good Governance	•MTC to provide fast, reliable, and affordable digital network connectivity, to enable the city to convert manual operations into digitally smart ways, improve the quality of customer service, reduce turnaround times, and make the city's services available 24/7 online.	•Create Applications and systems to digitize the City's services including interactive websites, smart resolution of billing queries, a live portal to report and track issues and queries, etc. •Provide a reliable network to support access to 24-hour city services, such as call centres, websites, and portals.

Table 11: COJ's Strategic Overview

SECTION 4: PERFORMANCE AGAINST SERVICE STANDARDS

MTC is a Broadband Network Company designed to offer both wholesale data services to public and private entities as well as retail services and provide incidental services on behalf of the City. MTC mandate: MTC shall offer Wholesale services to the market and Internal Retail services. Spare capacity on the network will be provided to Network Operators and to ICT Resellers who will then sell directly to Enterprises, SMEs, and households. In addition, the Company shall perform any other municipal services assigned to it by COJ as defined in the Service Delivery Agreement (SDA) entered between MTC and COJ, as amended from time to time.

The Metropolitan Tech Company (MTC) is responsible for the enablement of the many Smart City Programmes of the City as well as rendering the full spectrum of Networking services and other incidental services to the City and many of its MEs.

MTC SERVICE DELIVERY STANDARDS

Service Area	Service Standard	Achievement Status	Achievement Status
1. Response to acknowledgements requests, enquiries and complaints on network and ICT services	Within 1 day of logging a call	100%	Achieved
2. Resolution of P1 request and enquiries regarding network	> 95% Within 4 hours of logging a call	59,20%	Non-achieved

Service Area	Service Standard	Achievement Status	Achievement Status
3. Resolution of P2 request and enquiries regarding network services	> 90% Within 8 hours of logging a call	58,37%	Not achieved
4. Resolution of P3 request and enquiries regarding network services	85% Within 3 days of logging a call	97%	Achieved
5. Resolution of P4 request and enquiries regarding network services	> 100% Within 7 – 14-day days of logging a call	83,28%	Not Achieved

Table 12: MTC Quarter Service Level Standards

MTC operates within industry standards, and the process of dealing with service outages is aligned with ITIL business practices. ITIL (Information Technology Infrastructure Library) prescribes detailed best practices for IT service management.

Figure 6: Incidents resolution process

The contact Centre performance is measured in terms of:

1. The time taken to attend to an incident as defined by the KPIs agreed upon within the terms of the SLA with the customer or SDA.
2. The time is taken to assign an incident to a service provider or resolver group.
3. The number of incidents logged on the service desk system.
4. The number of incidents resolved.
5. The number of incidents resolved within SLA as defined in the SLA KPI or SDA.

The service provider and internal resolver groups are measured in terms of:

- The time is taken to resolve incidents logged.
- The Mean Time to Repair (MTTR) incidents are logged against each of the customers and each of the service providers.
- Trends are analyzed, and targets have been set together with action plans to meet the performance targets.

FINAL MTC QUARTER TWO REPORT 25/26

The tables and graphs below present the performance of MTC taking into consideration calls logged and resolved across the various services:

Service Desk KPI	Oct-25	Nov-25	Dec-25	Q2 2025/2026

The graph below is a trend analysis for the 2025/26 financial year Contact Centre Performance:

SECTION 5: PERFORMANCE AGAINST PREDETERMINED OBJECTIVES

KPI Description	Oct-25	Nov-25	Dec-25	Q2 2025/2026
Customer retention rate Target	100%	100%	100%	100%
Customer retention rate Achievement	100%	100%	100%	100%

MTC is a key contributor to the provision of affordable and effective ICT services to City departments and Municipal Entities. In addition, MTC plays a critical role in expanding the accessibility and affordability of broadband services for the residents of the City.

Project Status:

For the Quarter under review, one project that had two clients was completed

PROJECT	CLIENT	START DATE	END DATE
Centralized Service Delivery Management Platform	PIKITUP	26/06/2025	10/24/2025
Centralized Service Delivery Management Platform	Metrobus	29/05/2025	10/24/2025

MTC KEY PERFORMANCE INDICATOR ACHIEVEMENT AT A HIGH LEVEL

MTC KPI Summary	KPI's
Total KPI's	10
Total Measurable KPI for Quarter ¹	08
Achieved KPI's	4 KPI's
Non-Achieved KPI's	4 KPI's
% Achievement	50%

Table 14: MTC Key performance indicator achievement at a high level

¹ The following KPI's: % of CoJ and Entity Capex Projects completed in the financial year and Audit Opinion are measured annually and therefore they are not included in this calculation.

MTC responds to four Key priority program areas that MTC contributes as part of the GLU priorities, below are the analyses.

Financial Sustainability (Revenue Generation and Collections) – ICT services provided to CoJ and wholesale dark- and lit fibre services supplied to the open market to increase competition in the local market to reduce the costs of services provided to end-users. Exclusively provide CoJ and the MEs with communication services to reduce the city's costs.

Smart City and Safer City

Smart City initiatives – Create a platform from which connectivity and technology solutions can be provided to residents of Johannesburg with a socio-economic objective of bridging the digital divide and enhancing municipal services. Safer City – Create a platform from which connectivity and technology solutions can be provided to residents of Johannesburg with a socio-economic objective of bridging the digital divide and enhancing municipal services.

Socio-Economic Development Initiatives – Stimulating the development of SMMEs in the space of Digital infrastructure while bridging the digital divide by improving access.

Day-to-Day Operations – Enforcing good governance, professional public service, and improved service delivery is paramount to MTC and CoJ.

CHAPTER 4

HUMAN RESOURCES

CHAPTER 4: HUMAN RESOURCES

MTC strives to create an enabling environment in which highly skilled and talented employees are empowered to perform at their full potential, thereby supporting the organisation's objective of becoming a high-performing entity. In this regard, the organisation recognises that a range of factors may either enable or constrain optimal employee performance. It is acknowledged that certain material conditions are essential to fostering employee success, including, but not limited to, certainty regarding the future of the organisation; consistent and fair people management practices; an enhanced reputation with customers, the shareholder, and the broader labour market; strengthened employer–employee engagement to maximise performance; a well-defined and sustainable recruitment pipeline; and improved employee morale.

SECTION 1: EMPLOYEE REMUNERATION (TOTAL COSTS INCLUDING EXECUTIVES)

The Executives' fixed salary is competitive and based on the individual's competencies, responsibilities, and performance. The review of the fixed salary is conducted on an annual basis for each financial year.

ITEM DESCRIPTION	ACTUAL AMOUNT	BUDGETED AMOUNT	VARIANCE
Basic	R7 257	R7 364	R107

Table 18: Employee Remuneration

EMPLOYEE BENEFITS

Employee benefits of MTC mirror those of the City of Johannesburg. The table below describes employee benefits.

NAME OF BENEFIT	QUALIFICATION	RELATED AMOUNT/RANGES
Housing Subsidy	Permanent	R 1,066.41
Ad hoc Loco	The employee using his/her car to do the entity's job	Determined by KM
Traveling (locomotion allowance)	Permanent employees - Employees are required to submit their log sheets at six-month intervals	R 8,016.42 – R 11,095.00

Table 19: Employee Benefits

MEDICAL AID

Medical aid contributions for permanent employees are 60% Employer contribution and 40% employee contribution. Employees are offered membership in the approved schemes.

PENSION FUND BENEFITS E-JOBURG PENSION

MTC employees are under the E-Joburg Pension Function wherein the employer contributes 18% and employees contribute 7.5%.

SECTION 2: KEY VACANCIES

MTC is committed to the continuous development of its workforce. In line with this commitment, MTC has identified a number of key positions that require capacitation to ensure that the company is well-positioned to achieve its current and future strategic goals.

The following table provides an overview of the key positions that have been identified for capacitation and of which some have been filled, the background of each position, the targeted capacitation date, and the status:

KEY POSITIONS	BACKGROUND	TARGETED CAPACITATION DATE	STATUS
Company Secretary	There is a need to capacitate this position in line with the current and future MTC strategy	Interviewers were conducted and recommendation was made	The incumbent started 01 August 2025
Legal Advisor	There is a need to capacitate this position in line with the current and future MTC strategy	01-December -2025	Recruitment in progress
Chief Technology Officer	There is a need to capacitate this position in line with the current and future MTC strategy	Interviewers were conducted and recommendation was made	The incumbent started 01 December 2025

KEY POSITIONS	BACKGROUND	TARGETED CAPACITATION DATE	STATUS
Corporate Strategy and Reporting Executive.	There is a need to capacitate this position in line with the current business model and the future of the organization.	On Hold	On Hold
General Manager Corporate Services	There is a need to capacitate this position in line with the current and future MTC strategy.	On Hold	On Hold
Executive Manager: Sales and Marketing	There is a need to capacitate this position in line with the current and future MTC strategy.	On Hold	On Hold
Chief Operation Officer	There is a need to capacitate this position in line with the current and future MTC strategy.	On Hold	On Hold

Table 20: The status quo of the critical Positions
MTC Structure occupancy statistics.

MTC has 82 positions on its approved structure, 48 positions have been filled resulting in a vacancy rate of 34%

SECTION 3: EMPLOYMENT EQUITY

To achieve organizational vision, MTC needs to ensure that its human resources capacity is developed to its full potential. Considering this and in line with Metropolitan Tech Company's objective, therefore, the Entity intends to become a business unit driven by progressive Human Resource and Organisational Development strategies, policies, and practices that will assist Metropolitan Tech Company in achieving its long-term vision of becoming A World Class provider of affordable and accessible ICT service. The Entity is committed to the principles of equity, non-discrimination, and diversity as Human Resources preserved in the Constitution of the Republic of South Africa, the Employment Equity Act, 55 of 1998, and other relevant labour laws.

The Entity believes that Employment Equity goes beyond just legal compliance rather the Employment Equity Act also provides an outstanding opportunity to enhance service delivery by ensuring that the skills profile of the business unit employees is optimally developed. To this end, the Entity will ensure that its skills development process is strategically linked to its Employment Equity imperatives. Furthermore, the implementation of Employment Equity will be contextualized within the broader organizational development and workplace transformation endeavour's that are strategically aligned with Metropolitan Tech Company's Strategic and Business Plans. The Five-year EE plan was approved in November 2020. This plan subscribes to the guiding principles outline in Metropolitan Tech Company's Employment Equity (EE) Policy.

The achievement of Employment Equity goals and targets remains an important challenge for MTC. The Network Operations component is mainly a male-dominated industry compared to the enterprise. Network and Information Technology industries are generally faced with an oversupply of male employees, especially among the previously disadvantaged communities, whilst challenged to be able to attract female employees in all ethnic groups and owing to the nature and focus of the business, it is even more difficult to attract people with disabilities as well.

MTC will have to introduce a female-focused internship program to attract and retain females in the network and IT space. To achieve this initiative, MTC should implement the following strategic imperatives fundamental to achieve the targets stated in the employment equity plan.

- Achieving a representative employee profile at all occupational levels
- Creating a culture of equity, appreciation of diversity, and fairness for the benefit of all employees
- Proportionate investment in skills development

- Championing a holistic approach to transformation through optimal performance on employment equity goals and targets as well as other all aspects of the Broad-Based Black Economic Equity (B-BBEE)

The transformation agenda as pertains to Employment Equity will focus primarily on the following:

- Identification and eradication of systematic and systemic barriers to the achievement of employment equity goals.
- Management of diversity.
- Implementation of women and disabled person's advancement programs.
- Harvesting of all policy and program synergies towards the achievement of a quantitatively and qualitatively Equitable workplace.
- Conducting research and establishing from other Entities how they manage to achieve their EE Targets.

SECTION 4: SKILLS DEVELOPMENT AND TRAINING

Skills development and training are crucial employed interventions for several reasons, as they play a significant role in individual, organizational, and societal growth and success. In support of MTC's strategy in its Business Plan to develop and improve the skills of its workforce, all employees have submitted the skills audit questionnaire in preparation for the upcoming skills audit. When employees feel that their skills are being developed, they tend to have higher job satisfaction and morale. They are more likely to feel valued and engaged, which can reduce turnover and improve retention rates. MTC understands that skills development and training are not only important for individual career growth but also for the success and competitiveness of MTC and the overall well-being of society. By investing in the continuous development of skills, individuals and organizations can thrive in an ever-changing world.

SECTION 5: PERFORMANCE MANAGEMENT AND SUCCESSION PLANNING

MTC will strive to recruit employees who are motivated to serve others. Our training and development will be biased towards behaviours and actions that drive customer satisfaction and a culture of service. This culture of service will be instilled and reinforced with appropriate performance management systems and incentives. MTC Human Resources Development Strategy outlines key programs and interventions regarding this strategic objective. A key strategic consideration for the entity is to ensure that a proper balance is maintained between performance management and opportunity management. While ensuring that we are able to solve today's challenges and thrive in the current operating conditions, we are cognizant of the need to prepare ourselves for future opportunities.

PERFORMANCE MANAGEMENT DEVELOPMENT SYSTEMS

MTC maintains and implements its Performance Management and Development Systems (PMDS) in alignment with the provisions of the following key legislation, regulations, and policy prescripts:

- The Local Government: Municipal Systems Act, 2000 (MSA)
- The Government: Municipal Finance Management Act, 56 of 2003 (MFMA)
- The Local Government: Municipal Performance Management Regulations, 2001
- Municipal Staff Regulations SEPT 2021 (MSR)

MTC operates a performance management system based on the periodic assessment of both strategic and operational indicators. Throughout Quarter 2 of the 2025–2026 financial year, this system has been consistently applied to monitor, evaluate, and drive organisational performance, ensuring alignment with set targets and overall strategic objectives.

QUARTER 2 COMPLIANCE PERFORMANCE PROGRESS

Metropolitan Tech Company (MTC) achieved an overall 100% performance management compliance rate in Quarter 2 of the 2025–2026 financial year, with all departments attaining full compliance. This exceptional performance demonstrates the organisation's strong commitment to fostering a culture of accountability, performance excellence, and continuous improvement.

Furthermore, MTC is the only entity within the City of Johannesburg group to have recorded a 100% compliance rate in the Quarter 1 results, reported in Quarter 2 of the 2025–2026 financial year. The organisation remains committed to sustaining this level of performance throughout the entire financial year.

As part of the compliance process, all MTC employees were required to complete and sign the following Performance Management documents:

- **Scorecards**
- **Performance Agreements**
- **Work Plans**

5.3 The table below presents the Performance Management compliance rate for Quarter 2 of the 2025–2026 financial year:

Departments	Number Of Signed Scorecards	Number Of Signed Performance Agreements	Number Of Signed Workplans	Compliance Status
1.Finance	12	12	12	Fully Compliant
2.Internal Audit	3	3	3	Fully Compliant
3. Company Secretary	2	2	2	Fully Compliant
4.Corporate Strategy & Reporting	8	8	8	Fully Compliant
5.Risk & Compliance	1	1	1	Fully Compliant
6.Network Operations	20	20	20	Fully Compliant
TOTALS:	49 /49 X 100% =			100%

PAST PERFORMANCE

MTC maintains a performance management system based on the periodic assessment in terms of both strategic and operational indicators. During the quarter under review, MTC reviewed its current Performance Management Policy and other supporting policies in line with the relevant statutes. The outcome of this review displayed that there is a need for the entity to revise its current document to ensure maximum compliance. During this quarter, the entity has reviewed its performance management policy to align with that of the City and encourage individuals to improve their performances. Over the last few years, the entity has not been able to pay performance bonuses to all its employees due to delays in the City’s finalization of its performance policies.

SECTION 6: DISCIPLINARY MATTERS AND OUTCOMES

For the period under review, there were no disciplinary matters and issues to be addressed

SECTION 7: LEAVE & PRODUCTIVITY MANAGEMENT

The City of Johannesburg and its Entities are using Employee Self Service (ESS) for leave management. It is the automated leave management process that assisted in facilitating a hassle-free and more positive employee-employer work relationship.

SECTION 8: EMPLOYEE WELLNESS

MTC recognizes its employees' well-being as a valued Human Capital asset within the organization. In taking care of the Human Capital, MTC undertakes to establish an accessible Employee Health and Wellness workplace program to enhance employee well-being through the promotion of healthy attitudes and behaviours to ensure optimal engagement.

MTC understands that employee health and wellness is an important strategic objective, the focus remains on preventative measures in order to promote a healthy workplace, reducing absenteeism, and increasing productivity. MTC provided Psychosocial Support and Counselling Services to three employees through the Metrobus EAP panel."

SECTION 9: OCCUPATIONAL HEALTH AND SAFETY

MTC strives to provide an integrated Health and Wellness Program that promotes the employees' holistic well-being, adheres to statutory requirements, and promotes organizational sustainability. Employees must have confidential access to Wellness. This includes Primary Health Care, Occupational Health, and Employee Assistance Services while conserving human dignity, respect, and employee privacy.

SECTION 10: ETHICS AND CORPORATE SOCIAL RESPONSIBILITY

Corporate Responsibility Initiatives

MTC remains committed to advancing the social and economic well-being of the City of Johannesburg through initiatives that support digital inclusion and improved access to essential services. During the second quarter, the entity continued the implementation of one of its key strategic mandates, which also delivers significant Corporate Social Responsibility (CSR) impact:

- Free Wi-Fi Rollout at

Rea Vaya BRT Stations

As part of its mandate to enable digital connectivity across the City, MTC continued the rollout of free Wi-Fi at Rea Vaya Bus Rapid Transit (BRT) stations during the second quarter. This initiative is designed to enhance the daily commuting experience while promoting inclusive access to digital services, in line with the City of Johannesburg’s Smart City and digital transformation objectives.

The project delivers the following CSR and developmental benefits:

Digital Inclusion and Social Equity:

The provision of free Wi-Fi addresses digital inequality by enabling internet access for commuters who may otherwise be constrained by the cost of mobile data, thereby promoting equitable access to information and digital opportunities.

Community and Socio-Economic Benefit:

Free Wi-Fi at BRT stations supports productivity and socio-economic participation by enabling commuters to access work-related platforms, educational resources, online services, and social networks during transit.

Alignment with City Strategic Priorities:

The initiative directly supports the City of Johannesburg's strategic goals relating to digital inclusion, economic development, and the creation of a connected, smart urban environment.

MTC recognises the Free Wi-Fi rollout as both a core service delivery mandate and a key CSR intervention. Through this initiative, the entity continues to contribute meaningfully to improving quality of life for residents while advancing the City's broader digital transformation agenda.

e-Procurement System Implementation

MTC is also a key enabler in the City of Johannesburg's initiative to implement a cutting-edge e- Procurement system. This project aims to modernize how the City engages with suppliers and service providers, ensuring a more streamlined and accountable process.

- **Good Governance:** The e-Procurement system promotes transparency and reduces the risk of fraud and corruption in procurement processes. It enhances accountability by providing a clear audit trail of all transactions.
- **SME Development:** By creating a more accessible and transparent procurement environment, the system can help level the playing field for SMEs, enabling them to participate more effectively in City tenders.

While the e-Procurement system is also an important operational improvement for MTC and the City, we recognize its significant positive impacts on good governance and SME development, which are key aspects of our commitment to social responsibility.

This report demonstrates MTC's commitment to both its operational efficiency and its broader social responsibilities within the City of Johannesburg.

Table 23: Statement of Financial Position and high-level notes.

Balance Sheet variance analysis:**Note 1. Receivable from Exchange Transactions**

Debtor's balance has increased from the comparative period due to non-payment from other entities and departments. COJ owes the majority (99%) of the debtor's balance. However, the balance has increased by 20% from the comparative period (Q2 2024/25).

MTC has engaged the office of the GCFO to assist with the collection of internal debtors, and the matter has been escalated to the office of the CM. The debtor's balance comprises R2,8bn for CoJ Departments, R140m for CoJ Entities, and R8m for external debtors.

Note 2. Loan to Shareholder

This represents the entity's cash balances that are held by the City's Treasury department. At the end of Q2, the balance of R871m was payable to the Shareholder.

Note 3. Property, Plant, and Equipment

The decrease is due to monthly depreciation and amortization.

Note 4. Payables from Exchange Transactions

Increase due to payments not being made within 30 days to suppliers as a result of cash challenges at the City.

Note 5. VAT Receivable

A VAT refund is due by the entity as of 31 December 2025.

Note 6. Shareholder Loan

No payments were made during the quarter; however, the interest charge was R85m.

SECTION 2: STATEMENT OF FINANCIAL PERFORMANCE AND HIGH-LEVEL NOTES

Table 24: Statement of Financial Performance and high-level notes
Revenue Analysis

Item Description	Quarter 2 2025/26			Quarter 2 2024/25			Reasons for variance
	Actual '000	Budget '000	Variance	Actual '000	Budget '000	Variance	
Revenue							
Non-exchange revenue	55 931	56 967	- 1 036	56 360	56 154	206	
Subsidy from City of Johannesburg	55 931	56 967	- 1 036	56 360	56 154	206	
Exchange Revenue	156 268	86 205	70 063	117 377	72 577	44 800	
Sale of services	156 268	76 845	79 424	117 377	63 746	53 631	Actual sales above budget due to increased business activity during the quarter, and higher than in the comparative period.
Tender Fees	-	-	-	-	-	-	
Interest received	-	9 360	- 9 360	-	8 831	- 8 831	No interest earned as the treasury balance was in overdraft.
Total revenue	212 200	143 172	69 028	173 736	128 731	45 005	
			-			-	
Expenditure							
Employee related costs	15 296	10 665	4 631	15 106	10 064	5 042	The employee cost is above budget. The budget costs to be realigned to take into account the current staff complement.
Depreciation and amortisation	8 399	39 496	- 31 096	8 842	37 931	- 29 089	The depreciation expenditure is below the budget due to Network assets being revised at the 2017/18 year-end in terms of GRAP 105 which resulted in a lower depreciation charge than initially budgeted for.
Finance cost	85 515	47 143	38 372	51 137	44 475	6 662	Higher than budget due to interest on non-payments towards the Shareholder's Loan and interest on the overdraft.
Repairs and maintenance	15 190	6 086	9 103	15 719	4 879	10 840	Above budget due to more repair incidents that took place.
Contracted services	12 483	12 484	- 0	5 177	12 360	- 7 183	There has been efficient spending on consulting expenditure.
Other expenditure	236 559	21 386	215 173	170 401	22 318	148 083	This line item is above budget due to higher cost of sales incurred through the use of service providers. These costs are recovered from internal sales.
Total expenses	373 442	137 260	236 182	266 381	132 027	134 355	
			-			-	
Operating surplus/deficit	- 161 242	5 913	- 167 155	- 92 645	- 3 295	- 89 350	
			-			-	
Operating surplus/deficit excluding subsidy	- 217 174	- 51 055	- 166 119	- 149 004	- 59 449	- 89 555	

Table 28: Statement of Financial Performance and High-level Notes

REVENUE ANALYSIS

- The subsidy received from the City of Johannesburg is above the budget.
- Actual sales year to date are above budget due to increased business during the quarter.
- No interest was earned as the Treasury balance was in an overdrawn position.

EXPENDITURE ANALYSIS

- Employee-related costs are above budget. The budget needs to be realigned with the current number of employees at the entity. Discussions are taking place between the Budget Office and MTC.
- The depreciation is below the budget due to network assets values being revised lower at 2017/18 year-end in accordance with GRAP 105 which resulted in a lower depreciation expense than initially budgeted for.
- Finance costs are above budget due to interest on the overdraft and shareholder's loan
- Repairs and maintenance are higher than the budget due to more incidents of repairs that were carried out.
- Consultants' costs are in line with the budget as consultants are utilised as and when required.
- Other expenditures are above budget due to the higher cost of sales incurred through the use of service providers. These costs of sales are recovered from internal sales.

INCOME STATEMENT ANALYSIS

EXPENDITURE ANALYSIS:

Figure 7: Expenditure

The graph above depicts that Finance costs, and other expenditures are the main contributors to the entity's expenditure. The other line items are in line with the budget. Other expenditures are above budget due to higher spending than expected for costs incurred for services rendered.

REVENUE: INTERNAL VS EXTERNAL CUSTOMERS

Figure 8: Income

The diagram above depicts the split between internal and external customers. External customers represented 3% of revenue whilst internal customers represented 97%. The entity is reliant on internal customers to generate revenue. This excludes the subsidy from COJ. The entity was allocated a minimal capital budget and, therefore is unable to invest adequately in capital expenditure to improve the condition and performance of the network and thereby attract external customers.

SUMMARY OF REVENUE:

Figure 9: Summary of revenue

The graph above shows the types of revenue generated by the entity and the contribution to total revenue. A major part of the revenue earned during the second quarter was from the sale of services.

SECTION 3: STATEMENT OF CASH FLOWS

Statement of Cash Flows for the period ended 31 December 2025		
	Quarter 2 2025/26	Quarter 2 2024/25
Cash flow from operating activities		
Receipts	(259 909)	(472 479)
Subsidy from CoJ	55 931	56 360
Cash received from customers	(315 841)	(528 839)
Interest income	-	-
Payments	(209 697)	(179 063)
Suppliers	(209 697)	(179 063)
Shareholder loan repayments	-	-
Net cash outflow from operating activities	(469 606)	(651 542)
Cash flows from investing activities	-	-
Purchase of PPE	-	-
Cash flows from financing activities	469 606	651 542
Loan from/(to) Shareholder	469 606	651 542
Net increase(decrease) in cash and cash equivalents	- 0	(0)
Cash at the beginning of the quarter/year	-	-
Cash and cash equivalents at 30 June 2025	- 0	(0)
Cash Flows from operating activities excluding subsidy		
Net cash outflow from operating activities	(469 606)	(651 542)
Excluding Subsidy	(55 931)	(56 360)
	(525 538)	(707 902)

Table 29: Cash Flow Statement

Cash utilised in operations amounted to R470 million for the period ending 31 December 2025. During the quarter there was no spending on CAPEX due to projects being in progress. It is expected that these will be invoiced during the third and fourth quarters. The net impact from investing and financing activities was an inflow of R470 million.

Cash flows from operating activities can be improved by aggressively pursuing collections from our internal debtors. In this regard, the office of the GCFO is assisting. Supporting information has been submitted for the major balances to support the payments due to MTC.

SECTION 4: CAPITAL PROJECTS & EXPENDITURE

CAPEX SPEND - (2025/26)													
Item Description	Budget Allocated	Q1		Q2		Q3		Q4		Total Spent	Percentage spent	Committed	Percentage with commitment
		Actual	Budget	Actual	Budget	Actual	Budget	Actual	Budget				
Office upgrade	6 700	-	-	-	-	-	-	-	-	-	0%	-	0%
WIFI Commercialisation	20 000	-	-	-	-	-	-	-	-	-	0%	-	0%
Total	26 700	-	-	-	-	-	-	-	-	-	0%	-	0%

Table 26: Summary of Capital Projects

The following capital projects are planned for the year under review:

- Office upgrade
- Wi-Fi commercialisation

The entity has been allocated a capital expenditure budget of R26,7m for the year under review. These projects are in progress, and it is expected that they will be invoiced and paid for during the third and fourth quarters.

SECTION 5: RATIO ANALYSIS

Ratio	Calculated ratio	Norm	Explanation
Current ratio	1,07	1.5 to 2 :1	The current ratio is below the norm due to the high current liabilities balance caused by city-wide cashflow challenges.
Solvency ratio	0,83	2	The ratio is below the norm as a result of the entity being technically insolvent due to the impact of the Shareholder Loan whilst the PPE is decreasing due to depreciation.
EBITDA	- 67 328	None	EBITDA is negative as a result of operating expenses being higher than the operating revenue when excluding the impact of finance costs.
Repairs and Maintenance as a % of PPE	4%	8%	The percentage is lower than the norm. The entity is also constrained by budget. Currently the budget is not aligned to 8% of the PPE value.
Net Debtors days	6 877	30 days	This ratio is well above the general norm due to outstanding debt from the shareholder that is more than a year outstanding. The shareholder continues to receive services with no/infrequent payments made to MTC.
Cash/cost coverage ratio (days)	-	Between 1 month to 3 months.	The ratio indicates that the entity does not have cash to cover fixed monthly operational costs which is below the norm. Impacted by challenges with internal debtors and the treasury balance going into an overdrawn position.
Capital cost as a % of total operating expenditure	23%	6% to 8%	The ratio is above the norm, indicating that interest cost is the major contributor to expenditure and that the entity has a high borrowing cost. This is due to the increase in the Shareholder's Loan balance as a result of the non-payment of the capital portion of the loan.
Debt to Revenue	1934%	45%	The ratio is well above the norm indicating that the long and short-term borrowings are high in comparison to the revenue generated by the entity. This is due to the high value of the Shareholder loan which is increasing. It therefore shows that the entity is not generating sufficient revenue to repay the debt. It is also an indicator that the entity is reliant on the subsidy to be able to repay the debt.
Net Operating Surplus Margin	-103%	The norm is equal to or greater than 0%	The entity generated a deficit during the quarter.
Remuneration as % of Total Operating Expenditure	4%	The norm range between 25% and 40%	The ratio is below the norm due to a number of positions not being filled.
Contracted Services % of Total Operating Expenditure	3%	The norm range between 2% and 5%	The ratio is in line the norm as consultants are utilised on an as and when basis and in the period under review there was a low requirement of consultants.

Table 27: Ratio Analysis
SECTION 6: MITIGATING ACTIONS TO IMPROVE RATIOS.
Solvency ratio, EBITDA, Capital Cost percentage, and Debt to Revenue ratios

The conversion of the Shareholder's Loan balance into equity would have immediately improved these ratios. Alternative ways of dealing with the loan are being explored. MTC has been engaging the Treasury Department in this regard and the services of an expert in this area has been procured.

Net Debtors days

The collection of internal debtors (CoJ departments and entities) has been a challenge for MTC. A request has been made to the office of the COO to assist the entity in collecting these

outstanding amounts. This matter has been escalated to the office of the CM. The Office of the GCFO is also assisting with the payments from internal debtors.

SECTION 7: SUPPLY CHAIN MANAGEMENT AND BBBEE

Quarter 2 2025/26								
	Oct-25		Nov-25		Dec-25		Total	
	Number	Value	Number	Value	Number	Value	Number	Value
Paid within the 30 day period	39	21 769 007,42	9	11 917 690,85	64	58 607 510,95	112	92 294 209
Not paid within the 30 day period	10	23 839 071,98	3	23 954 971,54	154	253 889 956,87	167	301 684 000
	49	45 608 079	12	35 872 662	218	312 497 468	279	393 978 210

Table 28: Payment in 30 days

MTC has paid 40% of its service providers within 30 days. The amounts relate only to external service providers and exclude any intercompany creditors. Due to liquidity challenges at the City, MTC could not receive funds in time to ensure that all payments are made within the stipulated 30 days.

Unauthorized, Fruitless, and Wasteful Expenditure and Due Processes

MTC incurred fruitless and wasteful expenditure of R 85m during the quarter, which is the interest on the Shareholder Loan and the overdraft.

Deviations

None

BBBEE Spend

The entity spent 94% of its total procurement on SMMEs and BBBEE-compliant service providers. This will be monitored and improved continuously as MTC has displayed its capacity in this space. MTC procured services from 27 SMMEs which represent 69% of suppliers to MTC.

Contract management

AMOUNTS OWED TO COJ AND ENTITIES (INTERCOMPANY LIABILITIES)

- MTC owes CoJ an amount of R2,8 billion in respect of the Shareholder's Loan balance.

CHAPTER 6

INTERNAL AND EXTERNAL AUDIT FINDINGS

CHAPTER 6: INTERNAL & EXTERNAL AUDIT FINDINGS

SECTION 1: PROGRESS ON INTERNAL AUDIT PLAN

Current Performance Status

Status	Quarterly Target	Actual Performance	% Performance Achievement for 2025/26
Project as per plan Q1	5	5	100%
Project as per plan Q2	13	11	85 %
Progress to date	18	16	89%

Table 33: Progress against the Internal Audit Plan

The table above reflects the progress to date against the approved Internal Audit Plan for the 2025/2026 financial year. A performance of **89%** achieved against the coverage plan for the 2025/26 period.

SECTION 2: PROGRESS ON RESOLUTION OF AUDIT FINDINGS

For the period under review, there were twelve (12) audit reviews and one Adhoc project that were planned, eleven (11) of the thirteen were completed which translate to 85% performance for Quarter 2 of the 2025/26 period. The performance progress achieved to date is 89% against the audit plan with two audits reviews still InProgress. According to the approved plan there are three audit reviews that has been moved from Q2 to Q4 (Project Management, Compliance review and Performance Audit) due to AGSA audit to avoid duplication and were replaced by Quality Assurance reviews on Business plan, Performance rewards and Mid-year deviation.

The table below reflect the total number of projects planned for the current financial year with the status.

In Progress  Not Started  Completed  Deferred  On hold

16	Consulting - AG Readiness Assessment				Complete	3
28	Communication and Marketing				Complete	4

The work executed revealed several instances of internal control deficiencies which expose the organization the risk of ineffective governance processes:

- non-compliance with regulations, policies, and procedures.
- inadequate and/or ineffective financial management controls (Unauthorised expenditure);
- Non-compliance with the MFMA supply chain management regulations, policies and procedures.
- inadequate contract management.
- inadequate IT General Controls and Application Controls.
- ineffective controls towards ensuring usefulness and reliability of performance information.

EXTERNAL AUDIT FINDINGS

AG Findings – AG Findings – The graph below depicts the status on progress made in addressing AG findings; A total of 51 findings was followed up during the audit of AG letter for 2024/25, and Sixteen (16) out of 51 findings were resolved translating to 31% as of 31 December 2025.

External Audit Findings Resolution Status

Audit Resolution Status

#	Classification of findings	Total findings raised to date	Total Findings resolved to date	Unresolved

							terms and conditions of the SDA and we were awaiting signature of the City Manager					
10	2024/25	COAF	Misstatement noted on the indicator: % of CoJ and entity Capex projects completed in the financial year	Project Management	GM: Network Operations – Anlyn Seafield	Matters Affecting Audit Opinion	Management notes and accepts the audit finding. It should be noted that the E-procurement tender is a project that was initiated by the City of Johannesburg (CoJ) in their response to address issues surrounding lack of controls with the manual SCM System. The project was initiated on 23 March 2023. The way the project was structured upon initiation, it was going to be phased in per module, with the first module being completed on 24/07/2024. It should, however, be noted that all modules are integral to the client's expected use of the project. Therefore, MTC has not delivered on all aspects of the project, that is, all the modules completed, for the system to operate in the manner	30-Dec-25	Due	Yes	completed	resolved

No	Audited Period	AGSA Finding Ref	Finding Heading	Audit Review Area	Person Responsible	Finding Rating	Management Action Plan	Implementation Date	Implementation Date	Repeat Finding (Number of Years)	Management Finding Status	IA Resolution Status
							and condition as intended by management. Therefore, the project was not to be completed by the end of the 2025 financial year. Management acknowledges that the Project Charter was vague in the manner in which the project was to be completed, especially in detailing each specific module completion dates, which would have shed more detailed information on how the client's system was to be completed. Management requests to adjust the reported achieved target to the re-calculated percentage of 89% (88.89% rounded up) and to adjust the project cover to correctly reflect the number of projects completed (numerator) as 8 and number of projects to be completed (denominator) as 9. Management will then					

No	Audited Period	AGSA Finding Ref	Finding Heading	Audit Review Area	Person Responsible	Finding Rating	Management Action Plan	Implementation Date	Implementation Date	Repeat Finding (Number of Years)	Management Finding Status	IA Resolution Status
							amend the Project Charter, through an approved Project Change Control document, which details agreed upon amendments to the completion date, as agreed upon, by both the client and MTC. A change control for the E-procurement Project will be provided, and quarterly sessions will be scheduled for Project register review.

SECTION 4: OVERALL STATE OF INTERNAL CONTROLS (ADEQUACY AND EFFECTIVENESS)

Sufficient and appropriate audit procedures were conducted, and evidence gathered to support the accuracy of the conclusions reached. The conclusions were based on a comparison of the situations, as they existed at the time against the audit criteria. The conclusions are only applicable for the scope of audit work undertaken. The evidence gathered meets the standards for the professional practice of Internal Auditing and is sufficient to provide senior management with proof on the conclusions derived from the Internal Audit.

In our opinion, the control environment in ensuring that corrective action is implemented over previously reported audit findings is considered to be **‘Partially Adequate and ineffective’** in providing reasonable assurance that the inherent risks are appropriately managed and that the business objectives will be attained. The current internal controls are in our opinion are partially adequate and needs continuous improvement to effectively address the internal control weaknesses raised particularly in the Audit of predetermined objectives, human resource management and performance management. Limitation controls also exist within the security management (cyber security and disaster recovery management areas which seek management to proactively intervene to improve the status of governance. Recommendations have been made to achieve a better audit outcome for the organisation and will be continuously monitored for implementation.

Overall Status of Control

 Adequate, but ineffective	▪ Control design found to be partially adequate, however a specific weaknesses were noted which requires improvement in order to be planned and organized in a manner that provides reasonable assurance that the MTC's risks will be managed and that the related goals and objectives will be achieved efficiently. ▪ Partial compliance with policies and procedures ▪ Follow up actions plans not addressed timeously and a slight improvement noted during Q4 of the 2024/25 financial year ▪ Audit of predetermine objectives controls have been improved to date. Management to continuously monitor the implementation of the controls on performance management.
